PICNICKERS FIND BODY OF WOMAN

The body of a woman clad only in a flimsy undergarment was found last Sunday beside the highway near Rockaway Beach, by Mrs. Ida Volens, of 1883 Fulton street, San Francisco, and her son Clyde, who were picnicking in that vicinity with friends.

J. C. Akana, of 1776 Linden avenue, called Constable S. A. Landini, who had the body taken to the Lasswell undertaking parlors in Daly City.

Last Monday the body was identified as that of Mrs. Anieta B. Lund, of Avalon street, San Francisco, a practical nurse employed at the Laguna Honda Home, the identification being made by Mrs. J. C. West and Miss Gertrude West, of 797 Florida street, mother and sister of the unfortunate woman.

Mrs. Lund's divorced husband, Norman Lund, an automobile mechanic and former gardener at the San Francisco hospital, was questioned late Monday, but was released when he convinced the officers that he had not seen his wife in over a month's time.

Miss Lund boarded with the Muratore family, at 24 Avalon avenue, up to September 5, when she was last heard from. Wednesday was her day off duty, and Thursday morning she telephoned to C. M. Wollenberg, the superintendent of the Laguna Honda Home, and asked for more time off, giving as her reason that she was ill and could not come to work.

Mario Muratore, a florist, friend of the unfortunate woman, was in the habit of taking her to work every morning in his machine. At present Muratore is being held in the San Mateo county jail at Redwood City, and is being questioned by District Attorney Edmund Scott, to determine if he knows anything about the illegal operation that assertedly was the cause of Mrs. Lund's death.

It is believed that following the operation the woman was beaten about the head. The blows, while not sufficient to cause death, brought on slight hemorrhages and caused a slow, painful death. According to Coroner J. C. McGovern, this beating was administered to disguise the real cause of death.

Muratore denies any knowledge of how Mrs. Lund met her death, but blood-stains found on the carpet of his machine and suspicious smears on the garage doors of his home looked very suspicious to the officers conducting the investigation. These stains are being analized by a chemist to determine whether they were caused by human or animal blood.

Constable S. A. Landini and Undersheriff Lawrence Neiri are in charge of the investigation. It is believed that the body was placed in a machine and taken down the Ocean Shore highway and thrown out without taking time to conceal it. It is presumed that the victim died late Thursday night or early Friday morning of last week.

The funeral was conducted from the mortuary chapel of W. C. Lasswell & Co., Tuesday afternoon, being strictly private. Burial was in a peninsula cemetery.

INTERESTING SERVICES AT THE METHODIST CHURCH

"The Key to Power" is the subject of the sermon which Rev. Roland C. Stahl will preach on Sunday, September 20, at 8 P. M., at the Methodist church. If the average man could avail himself of the great forces that exist all about him, what a powerful personality he would become. The question is, "Is there a great force that is available to every man? And if so, how is it to be discovered and applied?" With the aid of applied religious psychology, Mr. Stahl expects to answer these questions and thereby render a real service to the members of his congregation, his community and church.

Due to the illness of Mrs. Stahl, the Edgar Guest service, scheduled for last Sunday, had to be postponed. It will be presented as soon as her health will permit.

"What Christ Has to Offer Our Present World" is the subject of a series of sermons soon to be presented in the Methodist community church by the minister. The sermon topics and dates will be announced later.

PICTURE SERMONS ON THE LIFE OF CHRIST

Popular Sunday evening meetings are being held in Grace Presbyterian church, corner of Hanover and Evergreen, where a series of stereopticon slides illustrating the life of Christ are being shown. The morning service is held at 11, and the evening service at 7:45. The pastor announces his morning theme, "Are All the Children in?"

TAX RATE FIXED BY CITY COUNCIL

At the regular meeting of the City Council last Monday evening, Mayor H. H. Smith presiding, a resolution was adopted fixing the tax rate for the year 1931-1932. The Council decided that the tax rate for the coming year will be the same as last year, $1.40 within the original boundary lines of Daly City, and $1.15 in the annexed territory. The Colma territory recently annexed is not taxable in Daly City until next year.

A communication was received from the Pacific Telephone and Telegraph Company, asking permission to construct a conduit at Theta and Santa Barbara avenues, to improve service. The request was referred to the street committee, to report at the next meeting.

A communication from the Castle Building Co., complaining about the existence of a hog ranch near property in Jefferson Park, was referred to the health officer.

The street committee reported progress in regulating the numbering of houses south of Citrus avenue and west of Mission street, in order to facilitate mail delivery. The City Clerk was instructed to communicate with the Postoffice department regarding mail delivery in the newly annexed territory, which comprises most of the residential section of Colma.

Mr. H. P. Bowen appeared before the Council and asked permission to maintain and operate a taxi service in Daly City, to be known as the Elkridge service, and also asking permission for a stand at Evergreen avenue and Mission street. Permission was granted under a regular business license.

Considerable discussion was had in the matter of the proposed widening of Mission street and San Jose avenue.

The health officer filed his regular monthly report.

EAGLES' HORSESHOE TEAM VICTORIOUS

The Eagles' horseshoe team proved to be a little too strong for the American Legion team last Sunday morning at the Daly City Park.

Mayor H. H. Smith and Julius Nelson tossed the record score in the first set of games. George (Mike) Reardon and Steve Pfeifer were high score men in the second games. Steve Pfeifer also captured the singles game from the Legion by a score of 18 to 13, in fifteen innings.

A large crowd of Eagles and Legion fans was on hand, and B. J. Adams was right when he said: "If horseshoe games are started, it will get a big following."

The fact that the Eagles lost their first game of baseball last Sunday afternoon to the San Francisco Eagles does not discourage them, as they made a good showing, losing by a 7 to 8 score in ten innings.

On Sunday afternoon, September 20, the Daly City Eagles' ball club will play the Ocean View ball club at Ocean View ball park, at 2 o'clock. Manager Ed Cavagnaro will try out some new material next Sunday.

OLD GLORY POST NOTES

The last meeting of Old Glory Post and Auxiliary No. 2044 was held on September 11 at the Masonic Hall. The meetings were very well attended, there being a large number of visitors representing the various Posts and Auxiliaries. At the conclusion of the meeting the members provided refreshments, after which a happy hour was spent in dancing and getting better acquainted. This feature of after meeting entertainment has proven so popular with the members that it was decided to make it a regular event on the first meeting of each month, to be known as "Social Night."

The Post degree team, under the able guidance of Captain Dave Refatti, deserve the applause and compliments of all for the efficient manner in which they performed their work for the first time in the Post at the last meeting. They were viewed by several deputy officers, who highly commended the boys on their splendid progress. They were also given a boost at the inter-county council meeting.

Taps were sounded for Comrade Howard Porter, of Old Glory Post, who answered the last roll call on September 12. The burial rites were performed by officers of the Post. Our departed comrade was laid to rest at National cemetery, Presidio, at 11 o'clock Wednesday morning.

Tuesday evening a large group of members of Old Glory visited the V. F. W. dining room at 221 Fourteenth street, San Francisco, which is being sponsored by San Francisco Post No. 58. All needy veterans and their families are served a free meal on presenting their honorable discharge.

Inter-county council meeting was held in San Jose, September 12. Those who represented Old Glory Post were Comrades Howard McHugh, Walter Dorn, Dave Refatti, J. W. Allan and V. Fitzgerald. Many important subjects were discussed during the meeting. Monterey Post announced that they would hold a celebration, October 28, at Monterey. The Posts in the council have pledged their support and will send large delegations to participate in the festivities. Old Glory asks that all those who can, plan a week end trip to Monterey to cooperate with the Post. Post No. 888, of Santa Cruz, has offered to donate a silver cup to the winning degree team. Comrade J. Craig made it known that the degree teams would have to work hard as there will be plenty of competition among the peninsula Posts. Date of this event to be announced later.

The Mother Singers Chorus of the Seventeenth district Parent-Teachers' Association will meet on Wednesday morning, September 23, at 10 o'clock, in the choir room of St. Paul's Episcopal church, Burlingame, Occidental and the highway. Community singing will be emphasized and all those interested are invited to join.

GRAMMAR SCHOOL NOTES OF INTEREST

A lively game of speed ball took place between the grammar school boys of Woodrow Wilson and Colma, last Friday, on the Woodrow Wilson grounds. The game of speed ball is new to the boys, but is already proving a favorite game among them.

In Friday's game Vincent Gizzi was the outstanding player for Woodrow Wilson, scoring the six points for Woodrow by two beautifully angled field shots. Monte was the high point man for Colma, having nine points to his credit. The game proved a victory for Colma with a score of 17 to 6.

We now have seven speed ball teams whose players weigh less than 100 pounds; also four unlimited teams.

On Tuesday of this week Colma and Crocker met on Woodrow Wilson field and again Colma was victorious, with a score of 25 to 0.

Colma's 100 pound team will play Woodrow Wilson's best 100 pound team on Friday.

Miss Gladys Compana, who has been teaching in the Pershing school for the past few years, has been promoted to a position in the Woodrow Wilson school. Miss Grace Hauptli was elected to take Miss Compana's place in the General Pershing school.

Tuesday of this week the Woodrow Wilson-Vista Grande Parent-Teachers' Association met at the Woodrow Wilson school, Mrs. Woodside presiding. Mrs. Baughn, the financial secretary of the Seventeenth district, was present and favored the ladies with an interesting talk. Several new members were taken in, which will help swell the fund. Light refreshments were served after the meeting.

TANFORAN TO GET BIG TIME RACERS

Quality is represented in good measure in reservations for stalls piling up for the coming meet at Tanforan. Among the important establishments to be shipped from the "big time" is that of C. E. Davison, who will bring out about seventeen good ones. Right now the Davison runners are winning features at Lincoln Fields.

Davison does not have to worry about getting plenty of racing material, as he and Bennet Creech, trainer of the W. R. Coe stable, divide the Coe horses between them. Coe has the well known Shoshone stud in Kentucky and turns out such fliers as Osculator and Polonaise, winners of stakes on New York tracks. Coe was the last owner of Friar Rock, once a Californian and a successful sire for a number of seasons.

It takes little out of such a son of Friar Rock as No More to negotiate three-quarters in phenomenally fast time. The gelding which was bred at the Shoshone haras, scored in the Davison colors at Arlington Park in 1:10 and a fraction, equalling the track record.

In the event that No More holds his form he looms as a formidable eligible for the San Bruno Handicap, at six furlongs, to be renewed at Tanforan on the first Saturday of the session opening the first part of November. Last fall, it will be recalled, Schooner, two-year-old, was the victor in the San Bruno.

Infinity, which has raced at Tanforan in other colors, is going some himself, and is likely to be heard from in the best of company when Trainer Davison saddles him in November. The aptly named son of Eternal is winning race after race at Lincoln Fields.

EAGLES' BALL TEAM LOSES CLOSE GAME

The Daly City Eagles' baseball team lost a heart-breaking ten inning ball game to the Eagles No. 61 team, of San Francisco, last Sunday, the score being 8 to 7.

The Daly City team was in the lead throughout the game, but the San Francisco boys staged a ninth inning rally, making four runs to tie the score. Errors, two hits, and some erratic umpiring were the cause of Gus Ford, Daly City picher, losing the game. Ford pitched a great game, striking out twelve batters and alllowing no hits until the fifth inning.

Fassler, who opposed Ford, was hit hard throughout the game, Milano, H. Smith, Jr., Adams and Reardon leading the hitting attack for the Daly City Eagles. Four Daly City boys were thrown out at home plate by Eagle No. 61's left fielder. The game was played on Ocean View's new baseball park grounds and attracted a large crowd.

The Daly City Eagles made 15 hits, 7 runs and 4 errors; the San Francisco Eagles, 7 hits, 8 runs, and 4 errors. Batteries: Daly City, Ford and Bolger. San Francisco, Fassler and Brown.

Well, the Daly City team was "very informal, with no rehearsal," as Dobsie would say, and considering the fact that they were playing a team that has played all summer, the showing was good.

JEFFERSON UNION HIGH SCHOOL NEWS

Shall the high school dances at Jefferson Union high school include outsiders as well as registered students in the high school?

This is the question which has occupied the minds of the board of education for a considerable length of time, and was the subject of discussion at the meeting of the Parent-Teachers' Association held in the high school building on last Tuesday evening. There was an unusually large attendance of members. Among the visitors were Mrs. J. R. Spaan, president of the 17th district of the Parent-Teachers' Association, and Mr. and Mrs. E. E. Burckel, of San Mateo. Mrs. Burckel is membership chairman for the 17th district of the Parent-Teachers' Association.

In almost all the high schools of California the social functions are limited to the registered students. Where there are exceptions it is usually in the case of tthe smaller schools, where the community looks upon the high school as the center of its social activities, due to limited attractions elsewhere. Soon these schools grow to the point where it is not possible to accommodate the student body of the school and outsiders at the same time. Consequently in large communities it is found that the high school functions are held for the high school students only. There are few exceptions to this rule.

Educators are a unit in the belief that the interests of high school students are best served in their social functions when such occasions are limited to young people of high school age. Where the rules permit outsiders to be invited it is often found that adults many years the senior of high school boys and girls are in attendance. This does not create a normal environment for the development of ideal social relationships.

It is recognized that Jefferson high school has been singularly free from criticism regarding one of the other major difficulties. There is no evidence that any Jefferson Union high school student has ever brought intoxicating liquor to any of the social or other functions of the school. This is a record that the faculty and the members of the board of education and student body are proud of. Not all high schools in California can lay claim to such a record. It shows that the boys and girls of Jefferson are law abiding, not only as students, but also as members of the community. They are proud of their school and desire to preserve its good name.

But this much can not be said for all of those who have been invited guests. Occasionally someone of older years has violated the laws which govern our schools. Long before the 18th amendment was passed it was against the law to bring intoxicating liquor on school premises. No respectable citizen has ever condoned the offense of bringing intoxicating liquors to functions for the social entertainment of boys and girls of high school age. But some adults have been known to do this.

The board of trustees of Jefferson Union high school and the principal and faculty are determined that there shall be no compromise on this point. The social functions of our school must be kept free from intoxicating liquors and their attendant evils.

It had been proposed as a safeguard that school dances in future be limited to registered students. Some of the students felt that if given a chance to work out a plan they could do so whereby no one would be invited to the dances who would bring upon the school or student body and criticism.

As a result, President Paul Green has called a meeting of the student body at which the whole question will be thoroughly threshed out, and a committee appointd to draft such a plan for the government of all future social functions of the school. This will be presented to the board at its next meeting.

Among those who took part in the discussion were Mr. Truman Bentley and Mrs. Stella Jensen, of the high school board, Principal James Ferguson, Albert Boynton and Paul Green, representing the high school body.

Other subjects of Parent-Teachers' interest were discussed by Mrs. Spaan, Mrs. Burckel, Mrs. Franzen, Mrs. Dowdell and Mrs. McIsaac.

Delicious refresments were served by a committee consisting of Mrs. McIsaac, president of the Parent-Teachers' Association, and Mrs. James Ferguson.

LEGION MEMBERS SELECT OFFICERS

The members of Daly City Post No. 410, American Legion, held an election of officers for the coming year at their regular meeting on Friday, Sepber 11, the following members being selected:

Post Commander, Mockler; First Vice, Talmadge; Second Vice, Prizibowski; Adjutant, Kenney; Finance, Foreman; Chaplain, Woodside; Historian, Sanders; Sergeant-at Arms, Orr; Color Bearers, Derung and Hill; County Council, Beeker; Executive Committee, Callsen, Eade and Winters.

The Post is to be congratulated on its wise selection, each member having in the past shown his qualifications for the office to which he was chosen, and with the new staff in action there is every reason to anticipate plenty of action throughout the coming year, for which plans are already under way.

Comrades Norton and January have returned from Long Beach, where they attended the Legion convention as delegates from the local Post. They report a very fruitful session, interspersed with plenty of diversion, and incidentally they bore the local Post's colors in the parade. The Auxiliary was also represented, Mrs. January and Mrs. Kraft doing the honors.

Horseshoe enthusiasts, in the neighborhood of one hundred persons, witnessed a spirited game last Sunday, when the local Post of the Legion met the Daly City Eagles' team at the Daly City Park, where new courts have been provided. The game proved disastrous to the Legionnaires, as they were badly defeated by the Eagles. The totals were: Eagles, 243; Legion, 149. Investigation has revealed that the Legionnaires are not accustomed to a heavy track, nor to the new oversize stakes, both features being the cause of their lack of form. This will be remedied, however, and next Sunday at 10 A. M. there will be a return engagement, to which the public is cordially invited. Come early and avoid the crowd.

SCOUT COUNCIL HAS INTERESTING MEETING

The Daly City District Council of the Boy Scouts and Cubs held its regular meeting Tuesday night, September 15, in the council chambers of the City Hall. Mr. Bodien, the chairman of this district, called the meeting to order. The minutes of the previous meeting were read and approved. Mr. McHugh then called the roll, the following being present: Mr. Brown, representing the Firemen; Mr. January and Mr. Norton, of the American Legion; Mr. Johnston and Mr. McHugh, of the Veterans of Foreign Wars; Mr. Reardon, of the Police Department; Mr. Sunderland, of the Eagles; Mr. Varni, of the Colma district; and Mr. Bodien, of the City Council.

Chester Smith reported on Scout and Cub activities, stating that during their camping session there were no accidents or mishaps to mar a perfect record. Chester also stated that the tickets for the dance were being disposed of rapidly, but asked the Council for more support.

Mr. January and Mr. Norton announced that all arrangements have been attended to in regard to the entertainment and for the dance, and that it would be a "knock-out," as it is the best obtainable. Refreshments and the music were settled upon, and you will dance to the enchanting strains of Ed Hyme's orchestra.

Mr. McFadden, assistant to Raymond T. Hanson, chief executive, was caleld upon as speaker of the evening. Mr. McFadden congratulated the men of the Council for their splendid work and stated that nowhere has he witnessed a finer or more enthusiastic group of men than those he has found in Daly City. He urged the men to continue their work, as it meant so much to the boys of the community. Mr. McFadden enlightened the group on many subjects and especially those in regard to national recognition.

On Tuesday, September 22, the Council will hold another special meeting. It will be held in the City Hall at 8 P. M.

The Council wishes to extend to all male organizations an invitation to be represented at these Council meetings, and also any male resident of Daly City or Colma interested in this work.

Remember to support the Boy Scout entertainment and dance, as it is for your boy, and surely you would like him to have what the best troops have—sure you would. The date is October 3, in the Daly City Hall. The entertainment starts at 8 P. M. sharp. Don't forget to buy as many tickets as possible.

PROMISE A RIOT OF COLOR AT FALL FLOWER SHOW

All the riot of color in the gardens of the peninsula will be concentrated in a brilliant arrangement of fine blossoms at the flower show, which will be the outstanding feature of the San Mateo County Fall Flower Festival. The show, which will be open from the afternoon of Octobed 23 to and including Sunday evening, October 25, will feature the magnificent chrysanthemums, which have made San Mateo county famous all over the world. Every sort of "mum," from the huge show blooms of enormous size to the tiny pompon types, will appear in riotous quantity. The show will be held in the gymnasium of the San Mateo Junior College. Classes for amateurs, as well as professionals, will be offered, and many entries already registered show the interest of the entire county in the event.

Roses, dahlias, carnations, fruits and vegetables, miscellaneous plants, cut flowers, and many other classes of horticulture are to be represented in the huge display. There are special divisions for estates, for amateurs, for garden clubs, for organizations, for schools, for florists, commercial growers, nurseries and landscape men, parks, cemeteries and institutions, for Boy Scout Troops, and Girl Scouts, and an open for all prize, for the best novelty of recent introduction, plant or flower.

Directions for keeping grape concentrate from fermenting are so explicit that nearly everybody can understand and disregard them.

A score of plans have been proposed for raising the price of cotton. Farmers would be satisfied with one that would work.

Russia will now pay workers according to their ability. Some of us should be thankful we're not Russian.

RESOLUTION NO. 409

RESOLUTION FIXING TAX LEVY 1931-1932.

BE IT RESOLVED by the City Council of the City of Daly City, County of San Mateo, State of California, and it is hereby ordered that the rates of taxes levied by the said City Council of said City of Daly City for the fiscal year ending June 30, 1932, for municipal purposes upon each One Hundred and 00/100 ($100.00) Dollars of the assessed valuation of the property in said City of Daly City be and the same are hereby fixed and ordered collected as follows, to-wit:

For general city purposes	$1.00
For water works and redemption on bonds	.25
For library funds	.07
For improvement to water system and redemption of bond.	.08
	$1.40

It is provided that said rates for water works and redemption on bonds hereinabove fixed at twenty-five (25) cents shall not be collected from any property situate within territory annexed to the City of Daly City subsequent to the original incorporation of said City.

It is further ordered that the total tax rate to be collected upon the property situate within the original limits of said City of Daly City, as said limits were fixed at the organization and incorporation of said City, shall be and the same is hereby fixed at the snm of One and 40/100 ($1.40) Dollars on each One Hundred and 00/100 ($100.00) Dollars of the assessed valuation of the property in said City; and that the total tax rate to be collected upon property situate within territory annexed to said City since its incorporation and organization, be the sum of One and 15/100 ($1.15) Dollars on each One Hundred and 00/100 Dollars of the assessed valuation of the property so situated therein, and that said City Council does hereby levy said tax and the whole thereof upon the assessable property within said City subject to the provisions above mentioned, and the same shall be and are hereby directed to be collected as provided by law.

I HEREBY CERTIFY that the foregoing resolution fixing tax levy in the City of Daly City was duly and regularly adopted by the City Council of the City of Daly City, at a regular meeting of said City Council, held on the 14th day of September, 1931, by the following vote, to-wit:

AYES, and in favor thereof, Councilmen: Bodien, Twesten, Sundermann, Smith.

NOES, Councilmen: None.

ABSENT, Councilmen: Dalton.

B. C. ROSS,
City Clerk.

SUPERVISORS ORDER OLD JAIL RENOVATED

Gus Waller, Redwood City contractor, was employed by the board of supervisors last Monday to remodel the old county jail on Spring street to be used for housing some five county departments. Waller submitted plans for the work and an estimate of $1,466 covering the cost. The plans include the removing of partitions both on the lower and upper floors of the structure, so as to make three large rooms downstairs and two rooms upstairs. The downstairs room will be 24 feet by 30 feet in size, and the upper rooms 14 feet by 19 feet. Included in the cost of the job is the painting of the building on the interior and exterior, plumbing and the electrical wiring and fixtures.

The necessity for the reconditioning of the old jail was brought about by the creation of a new court and the additional help required for other departments, resulting in a shortage of room in the courthouse. Waller estimated the time required for completing the work of remodeling of the old jail at 30 days.

Plans were also submitted by him for remodeling the old post office building on Broadway, which had been offered to the supervisors by Mayor David R. Stafford for the use of the county at a monthly rental of $100. Waller estimated the cost of putting this structure in shape at $837. The board decided that it would be cheaper to utilize the old jail building in view of the fact that the rental charge would be eliminated.

NEW TRIAL IN FLOOD CASE IS UP TO JUDGE BUCK

The motion of Attorneys John Taaffe and Maxwell McNutt, representing Mrs. Constance May Gavin in her contest of the will of the late James Flood, was denied last Monday afternoon by Judge Trabucco, who was appointed by the judicial council to hear the motion. The Gavin attorneys had made a motion that Judge Buck, who has presided at the original trial, be disqualified from passing on a motion made by these attorneys for a new trial.

The action of Judge Trabucco leaves the matter in the hands of Judge Buck, who can either grant or deny a new trial. In the event that he sees fit to grant a new trial it is likely that he will ask that it shall be tried before some other jurist. If he denies the motion for a new trial the case will be appealed.

UNKNOWN MAN MEETS DEATH

An unknown man was killed instantly at 10:30 Saturday night just south of the San Carlos station when he was struck by the south bound limited. The man was crushed beyond recognition, and is believed to have been a suicide.

A check up of all identifying features is being made by Coroner J. C. McGovern and Deputy Coroner J. E. Layng. The only means of identification found were a watch and a key, everything had apparently been removed from the pockets.

The man is described as about 50 years of age, well dressed, and wearing a good pair of shoes. The hands appeared to be those of a man not used to hard labor.

SAN FRANCISCO WATER SUPPLY TO BE INCREASED

San Francisco's water supply will be augmented by 60,000,000 gallons a day when work is completed on a flume for which bids were received by the board of public works Friday. The flume will be 25,000 feet long, and will be 5 by 7 feet. It will take water from San Andreas lake in the northern section of the county just west of the skyline boulevard, and will conduct it to Crystal Springs lake, farther to the south, where it will become a part of the San Francisco water supply.

FACTS ABOUT THE TELEPHONE

Bell telephones in the Provinces of Ontario and Quebec in Canada showed a net increase of 23,340 during 1930, and placed an average of about 5,302-000 exchange calls every day, and some 75,000 long distance calls.

A new telephone circuit connecting London directly with Barcelona, Spain, has recently been brought into service. This new circuit will supplement two others already in operation between London and Madrid.

The checks used during 1930 in paying quarterly dividends to the stockholders of the American Telephone Company weighed about 5 tons and numbered more than two million. There are more than 600,000 stockholders, none of whom owns as much as one per cent of the total stock outstanding.

The hitch-hiker, too, is a staunch advocate of "free wheeling."

FROM ALL CORNERS

A thief who stole a traveling bag from the home of Naif Joseph in Flint, Mich., one night, returned the next night and got the key.

Mrs. Grace Lackey, of Chicago, pleaded in her divorce suit that her husband told her that kissing was barbarous and ancient and slapped her face when she asked him for a kiss.

The Rotary and Lions Clubs of McAllen, Texas, recently staged a night baseball game when all of the players were attired in pajamas.

A Weymouth, England, motorist could not remember for two days where he had parked his car, and when he remembered he was fined for leaving it without lights and for obstructing the street.

A burglar who broke into the home of Robert Meyers at Pelham, N. Y., took a shave, a bath, and jewelry.

The total damage to a boy who was knocked down within 10 seconds by two motor trucks at Benfleet, England, was a hole in the seat of his trousers.

When a truck carrying eggs and honey upset near Racine, Wis., traffic was tied up for nearly an hour while the sticky mess was being removed.

Three policemen of Liverpool have been held for trial on a charge of stealing a safe from a postoffice.

A lone apple tree on the ten-acre farm of Walter McClellan, near Centerville, Iowa, has produced enough fruit every year for some time to pay the $14.34 taxes on his land.

A cow forced her way into a house in Hull, England, climbed the stairs and entered a bedroom, frightening Mrs. John King into hysterics.

Thieves stole a pistol from the home of William Leimburger, in Princeton, Indiana, but left a dirty shirt and a fruit cake.

When a vendor of Los Angeles started selling pop-corn at $2 a package, police investigated and found a bottle of whiskey in each package.

When Auguste Parmentier, of Chaumont, France, decided to die, he first burned his house and eight 100 franc notes, so his heirs wouldn't benefit by his death.

Mrs. Alfred Moody, of Broklyn, N. Y., slapped a mosquito while she was on a pier in Atlantic City, and lost a saphire ring overboard.

Attorney G. C. Keline, of Chicago, stammered so much when he tried his first case in court that proceedings were adjourned for a day.

Mrs. Clinton Steel, of Macomb, Ill., testified in her divorce suit that her husband made their 2-year-old daughter drunk.

Miss Mary Lennis, aged 60, of London, was summoned for annoying C. J. Horne with her attentions, and the judge warned her to behave herself.

Automobiles crashed into a store at the end of a bridge in Portland, Maine, so many times in foggy weather that concrete bumpers were placed in front of it.

Collecting eggs in her henhouse, Mrs. John Kulbacki, of Hillsborough, N. H., found one with a marble in place of the conventional yolk.

Forgetting to lock up one night, Patrocino Ruiz, of Juarez, Mexico, awoke the next morning to find the doors and windows missing from his house.

A razor bought 200 years ago is still being used by Oliver Bollard of Ionia, N. Y. But, of course, Oliver was not the original purchaser.

A Chicago woman divorced her husband because he took a goat automobile riding and wouldn't take her.

S. N. Lumback, a grocer of Oquawka, Ill., has saved $700 worth of pennies this year.

Mlle. Lorette Delvoir, of Paris, who has had her head shaved for the summer, wears a wig at evening social functions.

Weighing 238 pounds, a youth of 19 summoned for military service in Paris, has been sent home by the doctors because he was too fat.

Applying for a divorce, which was granted, Mrs. Elizabeth C. Norton, of Chicago, said her husband beat her in a row over the radio set.

Jim Owens, of Blytheville, Ark., was unhurt except for a slight burn when lightning struck and knocked his pipe from his mouth.

When motorists stopped to find out why L. Q. Johnson, of Kansas City, was standing by his car frantically waving his trousers, they were told that a hornet had crawled up his leg.

A letter in the Cincinnati Enquirer suggesting that charitable organizations supply electric fans to poor people in summer, is signed B. B. Fan.

A burglar who stole a watch from C. S. Boston, a grocer, of Pampa, Texas, also turned off the switch on an alarm clock set for 3 A. M., which caused the grocer to miss his train.

Harold Quinn, of Muscatine, Iowa, was tossed in the air, turned a somersault and landed unhurt in the autobile that hit his bicycle.

"Porter, how much to carry baggage?"

"Ten cents the first parcel, then five cents each further parcel."

"I will carry the first parcel and you take the other."—Lustige Kolner Zeitung.

Patriotism is that pain in the neck you feel when a foreigner wins a championship.—Illinois State-Register.

BULLETIN PROVES MOST INTERESTING

The success of the State Fair at Sacramento has prompted the analysis and recearch department of the Bank of America to compile a number of interesting facts on the economic history and position of the state. The facts have been collected in bulletin form and sent to all of the branches in the bank's system, under the heading "Confidence in California," which is also the State Fair slogan.

The bulletin shows that California and Pennsylvania are the only two states in the Union that contain two cities of over 600,000 population each. By way of contrast with the growth of California's cities and industries, the bulletin sets forth that there are some 30,442,581 acres set out in farms and orchards, and that there are millions of acres of tillable land remaining. The total area of the state is 99,617,280 acres.

According to the bulletin there are 10,066 industrial establishments in the state and the number of industrial wage earners averages 262,816. The importance of the banks in the development of business, agriculture and industry is shown by the statement that about nine-tenths of all business payments are made by check and that bank clearings have increased by 43.4 per cent in the past six years.

Perhaps the most striking figures of all deal with California's growth in population. In 1860 there were 379,-994 people in the state, and in 1930 the number had risen to 5,292,015. This is an increase of 1,392 per cent, as compared to the general national increase of 290 per cent in the same seventy year period.

The yearly grand total of money returns for products of all kinds had reached $3,365,276,224, according to the latest available figures. Of this grand total $2,593,247,224 applied to industrial products, and $772,029,000 to products of the soil, livestock and poultry. Indicative of California's agricultural growth, the bulletin stated that there was an increase of 383 per cent in the money value of farm holdings in the thirty year period between 1900 and 1930, the figures being $707,912,960 for the former, and $2,711,557,804 for the latter year.

The bank estimates, according to the bulletin, that California can support five times its present population, or approximately 25,000,000 inhabitants, without over-draining her resources.

The largest musical organization in the United States is said to be the Matinee Musical Club, of Philadelphia, which has nearly 2,000 members.

PLAYLET PRODUCED BY PUPILS OF LONGFELLOW

A playlet entitled "What is accomplished in a local Parent-Teachers' Association" was staged by the pupils of Longfellow school, under the direction of Mrs. N. F. Peterson, Thursday, September 10, in the school auditorium.

Twenty-seven children explained the activities of each chairman of the unit. These children gave a splendid illlustration of what can be done, through co-operation of every officer, chairman and member, as well as the faculty of the school; and also informed all present of the ideals of the Parent-Teachers' Association.

One of the children acted the part of the principal of the school and in her remarks explained to the members the necessity of regular attendance of their children, and also drew attention to the report card remarks and their value.

At the close of the meeting the children were served with refreshments at a specially decorated table.

USE OF ELECRICITY IN THE HOME GROWS REMARKABLY

The electric industry is growing so rapidly the annual increase in consumption of electricity in the home is greater than the total sales made by the industry twenty years ago.

Authority for this statement is the statistical research department of the National Electric Light Association. The department's figures show that domestic use of electricity in the first six months of 1931 increased 7.2 per cent over the corresponding period in 1930, and 22.7 per cent over the first half of 1929. The increase in this class of service amounts to nearly one billion two hundred million kilowatt hours a year.

When Charles Arnold, of Chicago, was arrested for begging, he was found to have $3,500 in his pockets.

Licensed women airplane pilots in the United States now number 419.

PUBLIC NOTICE

NOTICE IS HEREBY GIVEN that the City Council of the City of Daly City have prepared and filed with the City Clerk of said City a tentative report relating to the establishment of districts and/or zones regulating the use of property in the City of Daly City. That said tentative report was prepared and filed under and by virtue of the authority of that certain act of the legislature of the State of California, entitled "An act to provide for the establishment within municipalities of districts and zones within which the use of property, height of improvements and required open spaces for light and ventilation of such buildings may be regulated by ordinance", approved May 31, 1917, and a certain resolution of the City Council of the City of Daly City constituting the City Council a city planning commission for the purposes of said act, which resolution was passed and adopted on the 24th day of August, 1931.

NOTICE IS FURTHER HEREBY GIVEN that a public hearing will be had upon said tentative report in accordance with the provisions of that certain act of the legislature hereinabove referred to on the 26th day of September, 1931, at the hour of eight (8) o'clock P. M. of said day in the Council room of the City Council at the City Hall at Daly City, when and where any and all persons interested may appear and be heard.

NOTICE IS FURTHER HEREBY GIVEN that the tentative report herein referred to is on file in the office of the City Clerk of said city and reference is hereby made to said tentative report for full and more detailed particulars.

Dated: September 8, 1931.

H. H. SMITH.
Mayor of the City of Daly City.

B. C. ROSS,
City Clerk of the City of Daly City.

Sept. 18, 25, 1931.

NOTICE OF TRUSTEE'S SALE

WHEREAS, May Oti Larsen, formerly May Oti Bethell, and Elmar Larsen, her husband, made and executed to the California Pacific Title & Trust Company, a corporation, as trustee for Eleanor F. Wegener, as beneficiary, a certain deed of trust to secure the payment of a certain promissory note, executed by said May Oti Larsen and Elmar Larsen to the said beneficiary in the sum of Two Hundred and Twenty-four Dollars ($224.00), which said note and deed of trust bear date the 30th day of October, and which said deed of trust was on the 10th day of November, 1930, recorded in the office of the County Recorder of the County of San Mateo, State of California, in Volume 505 of Official Records, at page 151; and

WHEREAS, as authorized and permitted by said deed of trust, by written instrument, dated the 22nd day of May, 1931, and recorded May 26, 1931, in Volume 561 of Official Records, at page 9, in said County Recorder's office, said Eleanor F. Wegener substituted and appointed L. M. Wollitz as trustee to execute and carry out the trusts, powers and duties created by said deed of trust in lieu of said California Pacific Title & Trust Company, a corporation; and

WHEREAS, default has been made in the payment of installments due under the terms of said promissory note, and on the 26th day of May, 1931, the said Eleanor F. Wegener, the beneficiary under said deed of trust, caused to be recorded in the office of the County Recorder of said County of San Mateo, State of California, in Volume 525 of Official Records, at page 234, a notice of the breach and election to sell, under said deed of trust, and on the 26th day of August, 1931, said Eleanor F. Wegener, as such beneficiary, did demand of the undersigned, as such substitute trustee, to forthwith proceed to sell said real property therein and hereinafter described to satisfy said indebtedness;

NOW, THEREFORE, pursuant to said demand and in accordance with the authority conferred upon the undersigned by said deed of trust, said undersigned, as such substituted trustee, does hereby give notice that on the 21st day of September, 1931, at the hour of ten o'clock A. M. of said day, at the steps of the County Courthouse Building, in the City of Redwood City, County of San Mateo, State of California, said trustee will sell at public auction to the highest bidder, for cash in lawful money of the United States of America, all that certain real property, situate, lying and being in the City of Daly City, County of San Mateo, State of California, and more particularly described as follows:

Lot 11, in Block 27, as designated on the map entitled "Map No. 1 Vista Grande, San Mateo Co., Calif." which map was filed in the office of the Recorder of the County of San Mateo, State of California, on November 5, 1906, in Liber "C" of Maps, at page 35, and a copy entered in Liber 4 of Maps, at page 41.

Dated, this 28th day of August, 1931.

L. M. WOLLITZ, Trustee.

O'Brien, Dibert & Acton, Financial Center Building, San Francisco, California, Attorneys for Trustee.

Aug. 28; Sept. 4, 11, 18, 1931.

BUILDERS OF CALIFORNIA

100 Millions INVESTED IN their Future

ALL of the 5 largest universities and colleges in California are depositors in Bank of America

CALIFORNIA'S universities and colleges have invested 100 million dollars in the future of our young people.

Necessarily, education and finance are closely allied—giving Bank of America an opportunity to take part in the cultural development of the entire state.

This Bank now owns school district bonds with a par value of over $21,438,000—an investment that has aided the advancement of California's school program.

Through Bank of America's School Savings System, 250,000 children have accumulated three and one-half million dollars. Hundreds of students are paying college expenses out of these savings.

Fully 25,000 college students and teachers have accounts with this Bank.

Our Trust Department acts as trustee of endowments for scholarships, research and the education of heirs.

And Bank of America is especially honored in being chosen as a *depository* by educational institutions, large and small, throughout the state.

Those who administer educational funds give first consideration to safety. You can be assured of equal security by placing *your* account with a nearby Bank of America branch.

CALIFORNIA NEWS REVIEW

Richmond's ordinance prohibiting distribution of handbills and circulars from door to door is held valid.

La Crescenta Valley and Glendale schools are beginning the new term as one, following the consolidation of the two districts after a two-year discussion.

Close to $40,000 will soon be spent for improvements on the northern outskirts of Vallejo by Marin County capitalists in the improvement of a new addition.

A tax rate of $2.38 on each $100 assessed valuation on property outside of incorporated cities and a rate of $2.15 for property inside incorporated cities has been set by the Tehama County Board of Supervisors. This is a reduction of 23 cents and 15 cents over last year.

Cut flowers valued at nearly $10,000,000 were shipped from Alameda County to Eastern cities last year, placing that county among the leading flower growing sections of California, according to Charles B. Hall, secretary-manager of the San Leandro Chamber of Commerce.

With the cling peach pack of California reaching completion, Preston McKinney, secretary of the California Peach Control Committee estimated the total quantity canned will be somewhat less than the 9,000,000-case maximum agreed upon by canners and growers before the season started.

The city of Long Beach will soon be in the gas business under an agreement approved by the California State Railroad Commission. The commission approved sale of the properties of the Southern California Gas Company to the city at a price of $300,000, plus cost of additions made since December 31, 1930.

The fire which recently burned over a section of the Sutter Buttes near Colusa, had one good result, according to Melvin Tarke, one of the fire fighters. It destroyed thousands of rattlesnakes. Part of that section is popularly known as Rattlesnake Hills from the number of the reptiles ordinarily found there.

The spirit of overproduction apparently has invaded the hen coop. A Rhode Island Red hen, owned by W. P. Harris, Covina rancher, laid an egg that weighed fifteen ounces and measured eight by seven inches. The egg included four yolks. Harris said the hen cackled an hour and a half in celebration of her feat.

This year's benefit celebration to be held under auspices of Tamalpais Post No. 72, Veterans of Foreign Wars of the U. S., will feature a masked military costume grand ball. The affair is to be staged in the Kentfield Auditorium with Adjutant Howard Walraven as general chairman of the committee of 100 overseas veterans of Tamalpais Post No. 72. The affair is scheduled to be held late in October.

R. Stanley Dollar, president of the Dollar Steamship Lines, notified John Barton Payne, chairman of the American Red Cross at Washington, that steamers of the Dollar Line will carry 1000 tons of relief supplies to the Orient without charge as a contribution to relief measures. Ships from Seattle or San Francisco will be utilized as desired by the Red Cross, Dollar advised.

Capt. Hugh Brown of Berkeley, whose passports were revoked by official Washington because he remained in China more than five years, has had his rights restored through the intervention of Gov. Rolph and Representative Curry. Brown, a marine pilot, lived in Shanghai as American representative of the Woosung Hankow, international association of pilots. He was a naturalized American citizen out when he remained in China more than five years Washington officials revoked his passports.

Five hundred thousand California motorists will have to renew their operators' licenses, it was announced by the State Division of Motor Vehicles. Licenses issued since August 14, 1929, have but two years to run and the law requires that these must be renewed within ten days after the date of expiration. No fee is charged for renewal, but application must be made on forms provided by the State. Operators' licenses issued between January 1, 1927, and August 14, 1929, and which carry the notation: "Good until revoked," do not have to be renewed, it was stated by Fred Williams, inspector in charge of operators' licenses.

The United States government has condemned the Fresno County jail as unsuitable for confinement of federal prisoners. Deputy United States Marshal Sidney J. Shannon received orders to remove all prisoners from the jail immediately.

Building permits issued in Santa Rosa during August totaled $87,945, according to the monthly report of Walter Stracke, city building inspector. Permits issued during the same month a year ago totaled $24,350, according to reports.

Dozens of river and creek beds around Angels Camp which have not been worked since 1849 are being combed by gold seekers, some of whom are making good wages. The prospectors are aided by the fact that many of the streams have never been dry before. Bedrock is being carefully scraped in many places, and a few fair sized nuggets have been found.

Construction of the new cruiser, U.S.S. San Francisco, was begun at Mare Island Navy Yard, according to Rear-Admiral W. C. Cole, commandant of the Twelfth Naval District. An honorary riveting gang drove the first rivets on the $10,000,000 war debt. It will require about two years to complete.

Two of the ten largest Pacific Slope cities expanded their building operations in August, 1931, compared with August, 1930. They were San Francisco and Sacramento. The same cities, joined by San Diego, showed gains for the year to the end of August over last year, and also registered a higher total of building permits for August this year than for July, 1931.

Although customs clearings were not heavy during August, the value of dutiable imports from Mexico at the port of Calexico last month showed an increase of about 20 per cent and in free imports 10 per cent, according to the monthly report at the customs office at Calexico. The value of dutiable imports was $5405 and free imports $70,370. The value of exports was $114,065, slightly less than July.

Orders went out to all county officers and to the forest rangers all over the mountains to redouble their efforts to enforce all laws which are safeguards against the fires in the mountains which are so dangerous at this time of the year. J. A. Graves, State Fire Chief, and Russell Smith, State ranger, have sent out word that from now until the winter rains start the danger is more than doubled.

The harvesting of Tuolumne County's apple crop, estimated at 50,000 boxes, has begun, and will continue for a period of six weeks. The fruit is being packed at the Apple Growers' Association packing house at Ralph's Station and the Ralph packing house, as well as at a number of small plants throughout the county. The largest crop will be gathered at the Haslam ranch near Phoenix.

Dorothy Elizabeth, daughter born to Mr. and Mrs. Burdett Egy of Lindsay, at the Giant Forest Emergency Hospital, has the distinction of being the first baby born in the forest this season. The baby's father is in the park service and the family has been quartered at Lodge Pole this summer. The first baby born in the forest, at least of record, was Forest Grunnigen, now of Three Rivers, who was born there in 1905.

The state division of weights and measures is checking up on wet wash laundries, and has found cases where customers have been overcharged. J. S. Casey, chief of the division, said. He declared prosecutions will be made where necessary to correct the situation. Casey said one case was found where a six-pound bundle of laundry was charged as nine pounds, the customer overpaying at the rate of 10 or 15 cents per pound.

For the first time in the history of Santa Clara county, four judges may occupy benches in the local Superior Court. This probability was seen when it had been announced that Superior Judge Franklin D. Swart, newly appointed judge in San Mateo County, had been assigned to that county for the remainder of the year by the State Judicial Council. The assignment was made to aid in clearing up the congested calendars.

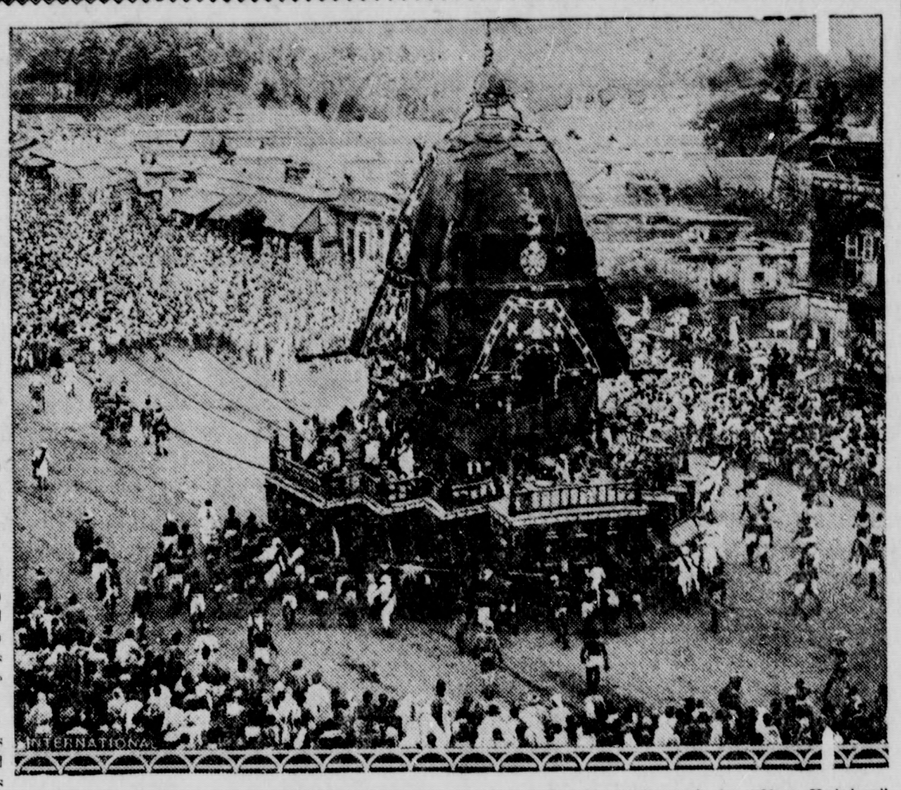
The Oakdale High School Board following the budget meeting in Modesto, will cut another 5 cents from the tax rate, making the reduction 10 cents. The rate for the year will be 40 cents. The increased reduction will mean raising $3500 less in the district, and the amount must be taken from the surplus. Efforts will be made to institute economies in operation. The school trustees agreed not to provide adult education the coming year excepting for Americanization purposes.

A $119,000 contract for construction of a dirigible mooring mast at the naval air station at Lakehurst, N. J., was awarded to Wellman Engineering Company of Cleveland. The mast is a type which moves over standard railroad tracks. It is to be delivered to Lakehurst in about seven months for installation and tests. Later it is planned to have it dissembled and shipped to Sunnyvale, Cal., for use at the dirigible base to be constructed there. The mast will be of an improved type embodying experience gained through use of a similar mast recently delivered at Lakehurst as well as experimental features planned by the contractors.

Governor James Rolph, Jr., has appointed Eugene Crosby of Bridgeport as supervisor of the First Mono County District. Crosby succeeds Ellsworth G. Taylor of Mono, who has been named maintenance chief of the state highway department in the Mono district.

Representing the final payment on the 1930 crop first pool, checks totaling $52,000 were mailed to the 180 members of the Santa Paula Walnut Growers' Association, according to R. C. Powell, manager of the local walnut plant.

Car of Juggernaut Still Rolls in Puri, India



FOR centuries most people believed the legend that when the Car of Juggernaut (more correctly Jagannath) was drawn through the streets of Puri, India, devotees threw themselves in front of it to be crushed by its wheels. In these times we know this is false, for the idol within the car is believed to contain the bones of Krishna, the eighth avatar of Vishnu, and to possess a soul, and any death within the god's temple or the spilling of blood in his presence is considered a defilement.

Many thousands of pilgrims gather in Puri for the annual Hindu festival when the ancient car is brought forth and the ceremonies are so impressive and picturesque that numerous tourists are attracted to the city, which is in Orissa on the seacoast. This year the festival was especially significant for it celebrated the "Nua Kalebar" or "God's renovation of the body."

Jagannath has a magnificent temple in Puri, and is exposed to view three days each year. On the first day the god is publicly bathed. Ten days later he is drawn in the massive and ornately decorated car to a neighboring temple, and this ceremony, here photographed, is the chief event. One week later Jagannath is conveyed back to his own temple. The Hindus regard Jagannath as the god of all people and pay him the deepest reverence.

BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

A THUMP AND A SLAP

IT ALL sounds like a dreadful quarrel, doesn't it? But there wasn't any quarrel at all. You see it was this way, Peter Rabbit sitting on guard near the pond of Paddy the Beaver, where Honker the Goose and his eleven followers were sleeping, saw something moving among the Black Shadows which filled the Green Forest. "Hello What is that moving over there?" thought Peter, but he was

Once More He Sat Tight and Held His Breath While Granny and Reddy Fox Passed.

far too wise to think it out loud. He just thought it inside and kept stiller than ever, if that were possible. And all the time he looked very hard in the direction where he had seen, or thought he had seen, a something moving.

Sure enough in a minute or two he saw it again. He saw it steal across from one Black Shadow to another and he didn't need to be told what that something was nor who it was. Oh, no, Peter didn't need to be told. Peter had seen that shadowy form too often not to know it at the very first glimpse. It was Old Man Coyote. Peter felt little prickles of fear all over him

"He knows I am over here and he's hunting for me," thought Peter. "Oh dear what shall I do? It is a long way to the nearest bramble-tangle and I don't know a single hollow log or hole any nearer. I wish I'd stayed at home. That's what I do—I wish I'd stayed at home"

He crouched down, making himself as small as possible under the thick branch of a low-growing hemlock tree, and stared out with eyes wide with fear. Nearer and nearer came Old Man Coyote. Peter sat tight. It was the safest thing to do. He just longed to run, but if he should do that Old Man Coyote would be after him in a flash and Pete knew how Old Man Coyote can run. So he sat tight, though it was the hardest kind of hard work. He held his breath. Old Man Coyote was so near that Peter was afraid he would hear the thumping of his heart. And then Peter gave a soft little sigh of relief. Old Man Coyote had passed without so much as a glance his way. In fact, Old Man Coyote was watching the pond of Paddy the Beaver, and his eyes fairly burned with eagerness. Silently, but swiftly, he stole along. He was making his way around to the other side of the pond. Then Peter understood He was after one of those geese who fast asleep, were drifting nearer and nearer to the other shore.

Peter was just trying to make up his mind what he ought to do when his wabbly little nose caught a familiar scent. Once more he sat tight it was the safest thing to do. Granny and Reddy Fox passed. They, too, were stealing along very softly, with their eyes fixed on the pond. They made their way around the other end of the pond from the one Old Man Coyote had gone around.

Peter's heart went pit-a-pat, pit-a-pat with excitement. What should he do? What ought he to do? If he should thump and try to waken Honker and the other geese he would give himself away. Would he be able to reach the nearest bramble-tangle before Old Man Coyote or Reddy Fox could catch him? Perhaps those sleeping geese would not drift any nearer to shore and then they would be safe and he would not need to give warning. Perhaps they would not hear him even if he did thump and he would run all that dreadful risk for nothing. Anyway, there was no need of doing anything just yet.

So Peter watched. Little by little two or three of those sleeping forms drifted nearer and nearer to the other shore. By and by they were so near it that Peter knew that something must be done at once or it would be too late. Somewhere over there three pairs of hungry eyes were watching those geese just as he was. Peter made up his mind. He would thump, and then he would run with all his might.

Thump! Thump! Thump! Peter hit the ground with all his might and hoped it would waken Honker. Then without waiting to see he started for the nearest bramble-tangle as fast as he could go.

Slap! That was the tail of Paddy the Beaver hitting the water. He had heard Peter's thumps and knew what they meant. And at the sound of that slap Honker the Goose awoke.

SEEKS NEW LAURELS

Maribel Vinson of Winchester, Mass., the champion girl skater, has an ambition to add to her laurels by becoming the sculling champ of the United States. She took up sculling at the Harvard summer school at Cambridge, Mass., and daily she is seen on the Charles river doing her stuff.

The Unanswered Letter

By DOUGLAS MALLOCH

(Suggested by G. M., Springfield, Mass.)

THE mailman comes, the mailman goes,
The postman passes by,
And someone only can suppose,
And wait, and wonder why.
Today no letter, and tonight
A silence hard to bear.
We wonder if they cannot write,
Or simply do not care?

The little note is laid away,
The letter put aside,
Yet someone hoped to hear today
An answering voice denied.
You may be busy, well we know,
So many things you're at,
You may be busy—are you, though,
As busy as all that?

Oh, keep the tree of friendship green
When friends are far apart.
How much a word of yours may mean
To cheer some absent heart!
The rose unwatered droops and dies,
Yes, dies in some sad hour;
The letter that unanswered lies
Is love's unwatered flow'r.

Mother's Cook Book

ECONOMICAL DISHES

AS MOST of the housekeepers the world over must economize, they are always looking for recipes that are good without being too expensive of time and material.

Economy Spice Cake.

Sift two cupfuls of bread flour with two tablespoonfu's of cornstarch and five teaspoonfuls of baking powder. Boil one cupful of sugar with one and one-half cupfuls of water, one-fourth cupful of cooking oil, one teaspoonful each of cinnamon, nutmeg, and salt and one cupful of raisins together, two minutes. Cool and add the flour and when well blended, pour into a floured pan to bake in a moderate oven for 45 minutes. Cover while hot with the following topping: the juice of one orange, a little of the rind if desired and one-fourth cupful of sugar well mixed. This mixture soaks in the cake leaving a light glazing top and adds greatly to the flavor of the cake. This may be used with any plain cake.

Corned Beef Hash.

Take two cupfuls of cooked corned beef, two cupfuls of cooked potatoes, all chopped, two onions chopped, salt and pepper to season, one-half cupful of milk and two tablespoonfuls of vegetable oil. Bake in a well oiled pan in a hot oven for 20 minutes, or cook in a well oiled frying pan until brown on the bottom, then fold like an omelet.

(©, 1931, Western Newspaper Union.)

Give Him the Limit

The Old Gardener Says:

THE autumn flowering crocuses which are very much like the spring crocuses but bloom late in the year, come into flower only a few weeks after they have been planted. They are choice subjects for the rock garden but may be scattered through the border, too. These autumn flowering crocuses are often confused with other autumn flowering bulbs called colchicums but the latter have very much larger leaves, and for that reason are not as well suited for the rock garden because the heavy foliage interferes with more delicate rock plants. Colchicums, however, are very handsome in the border.

Virginia Beach Office Hours During the Hot Days

WHEN members of office staffs of various businesses of Virginia Beach, Va., started complaining about the heat, executives of the concerns were struck by a brilliant idea. So the next day they quietly moved their entire staffs, including desks, typewriters, files, phones, etc., right down to the water's edge. Proper apparel for employees and employers was, of course, a bathing suit.

CONSTITUTION DAY

September 17 marked the one hundred and forty-fourth anniversary of the adoption of the Constitution of the United States by the Constitutional Convention in Philadelphia, after nearly four months of deliberation.

In recent years Constitution day has been widely observed through suitable exercises by schools, clubs and patriotic societies. It is only the truth to say that the average American is by no means as familiar with this great document as he ought to be. The wisdom and foresight of its authors have been amply vindicated throughout the life of the nation.

One of the highest tributes ever paid the Constitution was by the eminent British statesman, Viscount James Bryce, who in his American Commonwealth said:

"The Constitution deserves the veneration with which Americans have been accustomed to regard it. It ranks above every other written constitution for the intrinsic excellence of its scheme, its adaptation to the circumstances of the people, the simplicity, brevity and precision of its language, its judicious mixture of definiteness in principle with elasticity in details."

Every citizen should read the Constitution at least once a year, and Constitution day is an appropriate time to do it.

A North Carolina paper records that a sailor "was killed by coming in contact with a live wife." Possibly a linotype operator's error, yet such things have happened.

Italian reformers are crusading against petting parties. Appropriately enough the movement started in Bologna.

A sports writer is one who gets paid for guessing on results and for explaining why he guessed wrong.

CHINA'S AWFUL FLOOD

After being ravaged for years by brigandage and revolution, unhappy China is now suffering from the most devastating flood in all history. We in America can not begin to grasp the horror of the situation, where literally millions are dead already from drowing, starvation, and exposure, while other millions are doomed beyond the possibility of aid.

Even when the floods subside those who survive the initial disaster will be faced by the horrors of famine. The President of China estimates that fifty million will perish from starvation and disease in spite of anything that may possibly be done to save them.

The fall crops, never sufficient for the people's needs, have been destroyed, as well as nearly all the livestock. With winter coming on, there is no chance for raising new crops this year. Even where late sowing might be possible, the people have no seed, nor farm animals with which to till the soil.

It has been suggested that some small measure of relief might be afforded these stricken people by selling surplus American wheat to China on liberal credit terms. It seems that this should be done by all means. It would not only aid China, but would relieve our own situation without disturbing our regular markets. The Farm Board should act on this suggestion, and act quickly.

THE GREATEST DIRIGIBLE

Soon the largest dirigible ever built, the U. S. Navy's Akron, will take to the air for a series of test flights, the result of which will be keenly interesting to the aeronautical world. This monster of the air has a gas capacity of six and a half million cubic feet, nearly twice that of the Graf Zeppelin.

The Akron is 785 feet long, with a greatest diameter of 133 feet. Eight engines will develop 4,480 horse-power and a maximum speed of 84 miles an hour. At ordinary cruising speed the ship will be able to travel 10,000 miles without refueling. It will exert a gross lift of about 200 tons, and carry a useful load of about 90 tons. Equipment will include a number of small airplanes and several rapid-fire guns.

In view of the disasters which have attended the operation of dirigibles in the past, it is natural to speculate on the Akron's fate. One has only to recall the destruction of the American ZR-2, Roma and Shenandoah; the British R-101 and six other large dirigibles, the French Dixmude, the Italian Italia, and many others, to realize how few dirigibles, even those of the improved types of recent years, have survived for any great length of time.

The first dirigible disaster in the United States, by the way, was the explosion of one named the Akron, in 1912. Let us hope that the new Akron will have better luck.

SEEK THE LIFE SPARK

Studies in biology and bio-chemistry have developed many astounding facts, many of which have been of inestimable value to mankind, but the ultimate goal of such research is to find the secret of the life spark itself, and produce it from inert matter.

That this will some day be accomplished is the belief of many distinguished scientists, although this idea is flouted by those who hold to the traditional belief in the creation of life by special acts of a Supreme Being.

Prof. William Lash Miller, internationally known bio-chemist of the University of Toronto, has produced in his laboratory a component part of living matter, and his accomplishment is hailed as one of epochal importance by many fellow scientists.

Just what significance may be attached to Prof. Miller's latest discovery is somewhat difficult for a layman to judge, but it appears that it may mark a most important step toward the solution of the age-old question: What is life?

PRISONER CARS

In efforts to bolster their dwindling passenger business the railroads of the country have adopted many improvements and innovations in the interest of better service. One of the latest and most novel additions to passenger equipment is a special prisoners' coach fitted up by a Southern railroad, described in the following announcement:

This carrier has just converted a passenger coach into a patrol car for the transportation of prisoners. Steel bars protect the windows, and the coach has been equipped for the comfort and convenience of guards and prisoners, and is held in readiness to be sent to certain points on the system for the handling of large bodies of prisoners. The passenger department has asked employee-solicitors to advise U. S. marshals, sheriffs, deputies, etc., of this special equipment and service offered by the Southern."

Without any special interest in the railroad's revenue, we hope a sufficient number of gangsters may be rounded up to keep the newly equipped coach busy transporting them to the destination where they belong.

Critics of higher education are reminded that Lou Gehrig, the Babes' home-run rival, is a product of Columbia University.

Self-confidence is what enables a fellow in the grandstand to judge a play so much better than the umpire on the field.

Distribution of moonshine liquor may not have reached the saturation point, but some of its users have.

HEALTH RACKETEERS

Medical quackery, which for several years gradually lost ground because of the growing tendency of newspapers to reject quack advertising, seems to have found a new and potent ally in the radio.

Much advertising which no self-respecting newspaper would print is freely broadcast over the air, evidently with some success in attracting suckers, because it is being continued in undiminished volume.

Those who prey upon the public by fraudulently cashing in on the universal desire for health are characterized by Dr. E. P. Lyon, dean of the medical school of the University of Minnesota, as "halth racketeers." He says of this type of faker:

"His health patter is psuedo-science. His eye is on your check book. In these days especially he prostitutes the radio to his uses. Quacks and quackery, fakers and fakery of all kinds appeal to a bewildered public, between jazz and the nasal tenor, with blatant advertisements that no reputable journal would print. Oh, Health, what crimes are committed in thy name!"

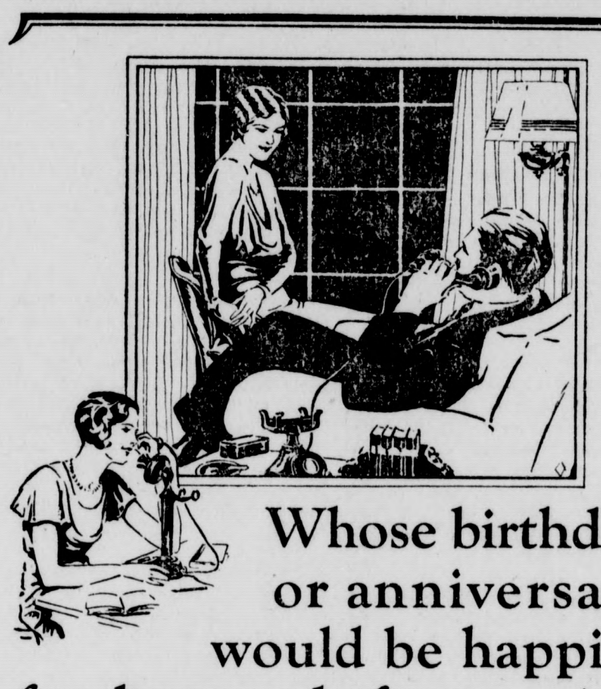
Even some of what appears to be legitimate advertising is very deceptive. The doctor says further: "Brushing the teeth is a nice habit; but no one has proved that it saves teeth, and all the flamboyant advertising about tooth pastes is rottonest tommyrot."

We often wonder if Bill Hay doesn't reel off his chronic radio spiel about "film" with tongue in cheek.

In the old days a young fellow got a thrill drinking from his first Christmas moustache cup.

It's hard to love your neighbor as yourself when his loud-speaker keeps you awake far into the night.

An exchange tells of a new-born baby that weighed 28 pounds—on an iceman's scales.



Whose birthday or anniversary would be happier for the sound of your *voice?*

IT MEANS so much to hear a friend's voice—to have a chat with members of the family who are traveling or away at school—to send personal greetings when there are birthdays or anniversaries or special events of any kind.

Who would thrill to the sound of *your* voice—*today?*

Colma News Notes

Oscar Woolsey, of Banta, visited in Colma during the past week.

Miss Josephine Baldetta, of Collinsville, visited with Mrs. Dorothy Garibaldi last Sunday.

Mr. and Mrs. Paul Selmi visited with Mr. and Mrs. Robert Schramm, of San Francisco, last Sunday.

Mrs. Evelyn Merlo and children, Louis and La Verne, and Mrs. Eva Claus spent last Tuesday in San Francisco.

Miss Norma Bertetta, of Price street, visited in San Francisco last Thursday afternoon with Mrs. Ray Bertetta.

Wednesday of this week La Verne and Louis Merlo, Jr., attended a birthday party in San Francisco in honor of little Gloria Landucci.

Many residents of this end of San Mateo county renewed old acquaintanceship with friends while celebrating at the Los Anegels Fiesta.

If all the residents in the Daly City district would have their mail addressed to Daly City instead of Colma, it would receive faster mail service.

Mr. and Mrs. Louis LeClaire and son Bud and Mr. and Mrs. Clement Heagerty and son Clement, Jr., and Mr. and Mrs. Tom Fahey spent last Sunday at Salada Beach.

Mr. and Mrs. Jack Callan, of Werner avenue, attended a birthday party in honor of little Ernest Bracci, Jr., who celebrated his second birthday, at the home of Mr. and Mrs. Ernest Bracci, of Hillsborough.

Less Volkman caught a 26-pound codfish at the Faralone Islands last Sunday.

Messrs. George Callan and Jack Callan, Jr., left last Saturday evening for a short stay in Reno.

Mayor Rossi and most of the municipal and judicial judges were guests at a picnic in Colma last Sunday.

Joseph Gilmore, assemblyman of the Twenty-third district, spent several hours at the Garibaldi home last Sunday.

The members of the Poppy Club will meet next Thursday at the home of Mrs. Olliotti, of Winchester street, Daly City.

Miss Gladys Callan, of Werner street, who has been ill for the past few weeks, is up and around again, feeling much better.

Mrs. Henry Remington and children, Mrs. Fred Silicani and daughter Doris and Miss Virginia Scaroni enjoyed one day last week at Salada Beach.

Ralph Starke, Grand Noble, Lodge U. A. O. D., paid his official visit to Olive Grove No. 116 last Friday evening. After the meeting a social was held, after which refreshments were served. All present had a good time.

Mr. and Mrs. M. Maffei report having had a good time at Sacramento over the holidays. While there they attended the fair and met many of their friends from this end of the county.

Miss Josephine Heinzle, of Patterson, was the house guest last week of Mr. and Mrs. Carl Schwartz, of Price street. Miss Heinzle is the oldest daughter of Mrs. Heinzle, of Patterson, fromerly of Colma. Josephioe was greeted warmly by all her friends here.

Mr. and Mrs. Gallindo entertained friends from San Francisco at a delicious goose supper at their residence in Colma on Friday evening of last week. The party lasted until the early hours of Saturday morning, all present reporting having had an enjoyable time.

Mr. Orazio Maffei, of Mateo avenue, one day last week found a sum of money, which he turned over to the Colma Bank. Later in the day the money was claimed by Mr. Pete Callan, who offered Mr. Maffei a reward, which he would not accept. Mr. Callan wishes to thank Mr. Maffei very much, and also declares that Mr. Jensen should be very proud to have such an hoest employe. Mr. Maffei is employed at Mt. Olivet Memorial Park.

Mr. and Mrs. Augustine Nielsen, of Castle Gardens, motored to Redwood Ciyt last Sunday.

Messrs. John and Frank Garibaldi and Vic Spiri returned home Tuesday after a deed hunt at Calveras dam.

Miss Olga Ottoboni spent Tuesday visiting with her niece, Miss Mabel Vireno, at the University of California.

The fire department whist which was held last Saturday evening was very successful. Fredda Bauer was the chairman.

Mr. and Mrs. Earl Jones and Mr. and Mrs. Carl Jones visited with Mr. and Mrs. Bob Hamilton, of Casa Mateo, last Sunday.

Mrs. Emma Woolsey spent last week end at Banta with her son Oscar Woolsey and her daughter, Mrs. Frances Michael and family.

Mr. and Mrs. Carl Schwartz and son Carl, Jr., motored to Patterson, Stanislaus county, over last week end, visiting at the Heinzel home.

The new Flower Shop on Mission street, owned by Frank Perata, will open its doors Saturday morning. His many friends wish him success.

Mr. and Mrs. Stephen Fischer and daughter Sylvia returned home the early part of this week after spending three weeks at their summer home in Capitola.

Many Colma people who attended the State Fair in Sacramento report having had an interesting time. The weather conditions were pleasant and the exhibits worth while.

A new Ford truck was purchased by M. Welp and A. Bartils from the National Auto Company during the week. These boys are well known landscape gardeners, and success is the wish of their many friends.

Cypress Circle No. 14 gave a social last Wednesday evening at Colombo auditorium. The evening was spent in singing and dancing and old time music was enjoyed by all. Refreshments were served later in the evening. A good time was enjoyed by all present.

Mrs. John Schenone, of Augusta street, and Miss Irene Moresco, of Dunk street, and Mrs. John P. Moresco, of San Francisco, report having an enjoyable time at Los Angeles and vicinity. They left on the H. F. Alexander, Saturday, returning to San Francisco Thursday morning.

Court St. Mary No. 1155, Catholic Daughters of America, will hold a whist party on Friday evening, September 25, in the Parish Hall, on Wellington avenue, Daly City. The public is cordially invited to attend. Game starts at 8:30 P. M. Mrs. Anne Shaw and Mrs. Minnie Rancatore are in charge of this affair.

Mr. and Mrs. Frank Giambastiani (nee Lida Casentini) returned home this week after spending nearly two weeks on their honeymoon. The bride and groom motored as far south as Tiajuana, Mexico, stopping at all the points of interest. On their return they motored to Yosemite Valley and Stockton. Mr. and Mrs. Giambastiani will reside in Colma.

San Mateo county presented a very artistic display at the State Fair in Sacramento last week. Mr. and Mrs. Tate, of Redwood City, our horticultural inspector, deserve a great deal of praise for their artistic ability in arranging the display. Flowers, shrubs, ferns and various plants from San Mateo county on display have received medals and blue ribbons as rewards.

Latest reports are that Fred Varni, who is now at the home of his parents, Mr. and Mrs. James Varni, of Price street, is now about in a wheel chair. Fred, who was accidentally run into at the Ferry terminal by an intoxicated driver, a few weeks ago, received a fractured chest and leg. He was at St. Luke's hospital for over three weeks. A rapid recovery is the sincere wish of all of Fred's friends.

Mr. and Mrs. P. Kunze, of Mateo avenue, gave a farewell party at their home in honor of Mrs. Henry Voss, who will leave next Saturday morning for Honolulu. Mrs. Voss and Mrs. Kunze have been dear friends for nearly fifty years. Mrs. Voss spoke on many interesting items of Honolulu. A delicious dinner was served to the following: Mr. and Mrs. Robert Herringa, Mr. and Mrs. William Voss, (Mr. Voss is an African game hunter.) Mr. and Mrs. Ed Bauer, Mr. and Mrs. George Simpson, Mr. and Mrs. Ed Hayden, Mr. George Sneider, Hanna Voss, Martha Platz, Fred Bauer, Jr., Helen, Hazel and Anita Voss and Frances Hirsh and Frances Platz. The room was prettily decorated with flowers. Miss Hanna Voss, Mrs. Platz and Frances Platz will accompany Mrs. Voss on her return trip to Honolulu, on the Mololo. Refreshments were served later in the evening. Everyone reported having had a good time.

BAY SHORE DOINGS

Friday, September 11, the Bay Shore Improvement and Social Club held its meeting. Mr. Wilson introduced a speaker from the P. G. &. E. Company, who gave details on why gas and electricity were so high in unincorporated districts. Many other interesting topics were brought up, some going into very heated debates, which was a great source of amusement all through the meeting. The meeting lasted until a late hour.

The Bay Shore P. T. A. whist for philanthropy will be held September 29, at 1:30 P. M. Refreshments will be served.

A committee meeting was held at the home of Mrs. F. Dowdell, September 15. Arrangements were made for the philanthropy whist to be held at the fire hall on Wallbridge. The proceeds are to be turned over to the philanthropy work of the Bay Shore school.

The Bay Shore fire department entertained the County Association on September 15, at the fire hall. There were a number of good speakers from San Francisco and San Matao, who spoke on Fire Prevention Week, to be held next month. The meeting lasted until a late hour, when delicious refreshments were served to some 100 guests.

A dance given for the benefit of the Bay Shore fire department fund will be held September 29. Give your firemen your support. The dance will be held at Walbridge and Schwerin. Mr. Gibbins, chairman.

The members of Bay Shore School Parent-Teachers' Association held their second meeting on September 11. A very good attendance was recorded. The meeting was called to order only to be adjourned while the parents went to the room of Mrs. Maritz's classes, where the first grade gave a fine sketch on Indian Lore, and also songs. The seventh and eighth grade girls gave two fine songs. Again the meeting was called to order, and the business finished with the customary dispatch. Committees were appointed for Fathers' night and the Philanthropy whist. Finally the meeting came to an abrupt halt when Mrs. Wentworth's fine coffee scented the halls, and Mrs. Bapties' fruit cup cakes were brought to the scene. One new member was enrolled, making seven this year, thanks to Mrs. Shaw, membership chairman.

It was voted to send Mrs. Coffin to the publicity class in the Second district, to help on her good work.

The Girl Scouts took care of all the tiny tots brought in while the meeting was held.

Fathers' night of the Bay Shore P. T. A. will be held on October 8, at the fire hall. A wonderful time is promised, also a good feed, if we are not mistaken.

After spending some time at Lake Tahoe and Fallen Leaf Lake and visiting in Reno, Nevada, and Susanville, Miss Olga Ottoboni has returned to her home in Lawndale.

The French senate is considering a bill which, if adopted, will have the effect of preventing any foreigners from practicing medicine in France.

Big telephone man heads employment board, but he is one who usually does something besides talk.

NOTICE OF TRUSTEE'S SALE

WHEREAS, on June 14th, 1929, M. F. Brass, as trustor, made his certain deed of trust to Title Insurance and Guaranty Company, as trustee, to secure the payment of his certain promissory note for $750.00 of even date, together with interest thereon and other indebtedness in said deed of trust described, to Ernest H. Hildebrand, as beneficiary, which said deed of trust was recorded in the office of the County Recorder of San Mateo County on June 19th, 1929, in Volume 422 of Official Records at page 65; and

WHEREAS, said M. F. Brass has defaulted in the payment of said note and interest and indebtedness and said beneficiary on May 28th, 1931, duly recorded in the office of the County Recorder of said County of San Mateo a notice of breach of said deed of trust and of his election to sell the property described in said deed of trust, which said notice was recorded in Book 521 of Official Records, at page 370; and

WHEREAS, on May 11th, 1931, one Albert J. Fabre was duly substituted and appointed trustee under said deed of trust in the place and stead of said Title Insurance and Guaranty Company, and said substitution and appointment was recorded on May 12th, 1931, in the office of the County Recorder of said San Mateo County in Volume 517 of Official Records at page 115; and

WHEREAS, said beneficiary has made demand upon said Albert J. Fabre, as such trustee, to sell under the power and authority conferred upon and vested in him, as trustee under said deed of trust, the real property therein and hereinafter described to satisfy said amounts and indebtedness secured by said deed of trust;

NOW, THEREFORE, in accordance with the terms and conditions and under the authority of said deed of trust and in pursuance of said demand, said Albert J. Fabre, trustee, hereby gives notice that default has been made in the payment of said note and indebtedness, and that on the 28th day of September, 1931, at the hour of 11:00 o'clock A. M., at the front entrance to the City Hall, No. 51 Wellington Street, Daly City, San Mateo County, California, he will sell at public auction, to the highest bidder for cash in lawful money of the United States, all or so much of said real property as may be necessary to satisfy the obligations and indebtedness secured by said deed of trust.

Said real property consists of all that certain lot of land in the City of Daly City, County of San Mateo, State of California, described as follows, to-wit:

Lot numbered 69 in Block lettered "A", as shown on that certain map entitled "Map of Mission Street Tract in San Mateo County, Cal." filed in the office of the County Recorder of said County of San Mateo, January 21, 1907, in Book "D" of original maps at page 50, and copied into Book 4 of Maps at page 51.

Dated: August 29th, 1931.

ALBERT J. FABRE, Trustee.

E. J. Tremont, Attorney for Trustee, Chancery Building, 564 Market Street, San Francisco, California.

Sept. 4, 11, 18, 25, 1931.

NOTICE OF TRUSTEES' SALE

On Monday, the 28th day of September, 1931, at 10:00 A. M. at the front entrance of the City Hall of Daly City, San Mateo County, State of California, Harry Esposto and Alfred Bothe, trustees, will sell at public auction to the highest bidder for cash, in lawful money of the United States, the following described property situate in the County of San Mateo, State of California, described as follows, to-wit.

Lot 25 in Block 13 as designated on the map entitled "Map of Subdivision No. 1 of Schwerin Addition Visitacion Valley Property of Schwerin Estate Realty Co. San Mateo County, California", which map was filed in the office of the Recorder of the County of San Mateo, State of California, on October 5, 1908, in Liber 6 of Maps at page 42.

Said sale will be made to satisfy the obligation secured by and pursuant to the power of sale conferred in a certain deed of trust executed by George Henry Wood, alias George H. Wood, and Sarah E. Wood, his wife, alias Sarah Elizabeth Wood, grantors, to Harry Esposto and Alfred Bothe, trustees for the benefit and security of Bay View Building & Loan Association, a corporation, dated March 13, 1929, and recorded March 20, 1929, in the office of the County Recorder of San Mateo, in Liber 399 of Official Records at page 369.

Notice of breach of said obligation and election to sell said real property was recorded in the office of said County Recorder March 5, 1931, in Book 509 of Official Records at page 487. This notice is given in compliance with the demand heretofore made on the trustees by Bay View Building & Loan Association, a corporation.

Dated: August 28, 1931.

CHAPTER V—Continued

—18—

At the bottom he must have collided with the man Harold had first encountered and for the third time struck him to the ground, falling on top of him with considerable violence. They instantly grappled, and, as they wallowed about the floor, they rolled into the legs of Harold and the other man bringing them down with a crash as well, on top of the bucket. Just as they fell Harold had found his opponent's right hand which, as Harold had expected, held a pistol. A frantic wrench by Harold and the shock of the fall tore the weapon from his opponent's grasp, and by the time they reached the floor it was safely in Harold's possession.

Signs of life were proceeding from the other rooms. People appeared at bedroom doors. The two strangers were roused into yet more frantic activity. Harold found his man breaking free from his grasp—and he was glad to let him go. Puddingface found his man writhing free, too—and he could not stop him from going. In the dim light Harold caught a glimpse of a classic, not a hawklike profile, but next instant both the invaders were loose and had leaped for the stairs. They seemed to get down them in a single bound, each of them. The street door must have been unbolted and open, for they dashed through it without stopping, and Harold, as he lay on the floor, heard their footsteps dying away down Scae Fell avenue.

The dumfounded people at their bedroom doors with one accord now began to move toward the two prostrate warriors, and as they did so Harold did some hectically rapid thinking. He held an automatic pistol in his hand by the muzzle, and he knew that this weapon would be to the police a very useful clue in tracing the invaders. And he knew at once that he did not want them traced—quite on the contrary. He decided instantly to suppress the pistol, and he did this effectively enough by thrusting it down into the front of his trousers before scrambling to his feet.

He had hardly achieved his object before some one switched on the landing light, and Harold and Puddingface were surrounded by a swarm of excited questioners.

"What in h—l d'you think you're up to now?" asked Danvers.

"Oh dear, oh dear, oh dear, whatever is it?" asked Mrs. Pound.

Puddingface looked stupidly round the ring of puzzled faces.

"So it wasn't you?" he asked Marks heavily. "It wasn't you I was scrapping with?"

"Not a bit of it. I was in bed when the row began."

"Then it must have been some one else," said Puddingface, with irrefutable logic.

"Some one ran out of the front door," volunteered Emmie, pushing to the front.

"Let's go and see," said Harold, making a move.

"No—no!" cried Mrs. Pound. "Perhaps they didn't go after all."

"Perhaps they're still there," said Emmie, and every one jumped a little.

Harold's common sense told him that no people who had a possible charge of murder hanging over them would dally anywhere near where the alarm had been given. His clear-headed habit survived the stress of action. "I don't think so," he said, and he pushed past and down the stairs, the others following at varying intervals.

He found the hall switch and turned on the light. The street door was open, sure enough; so was the door into the dining room.

"They've gone, all right," said Danvers, at his elbow. "Better get a policeman."

But a constable had already arrived at the gate, attracted by the lights and open front door. Half a dozen people disjointedly told him part of what had happened, and he entered to investigate. He went straight to the front window, and found at once what he was looking for. There was a neat hole in the pane two inches in diameter, close to the lock. Some one had evidently climbed into the front garden, and cut the hole, pulled back the lock, opened the window and climbed in. Then, having unbolted the front door and left it ajar to insure a rapid retreat, whoever it was had proceeded straight upstairs.

"And dashed quietly, too," said Puddingface. "I only just heard them."

The constable finished scribbling in his notebook.

"Very neat work," he said. "Looks as if—a chap we've had our eye on for a long time had done it. I think that's all I can do now. The inspector will come tomorrow and make an examination. I shouldn't touch that window or the door-knob or the banister if you can help it. There may be fingerprints. Don't think you need worry any more. He won't come again tonight, and I'll have my eyes open."

The policeman departed, but the others continued to sit round the dining room table excitedly discussing the amazing happening. Harold and Puddingface found themselves the heroes of the hour; there was admiration at their deeds in every eye. Harold found with dull surprise that he did not like being a hero under false pretense. He felt guilty as well as scared.

It was an hour before the party at last was able to summon up the initiative to break up. When at last, at four in the morning, Harold found himself in bed, sleep only came very hesitatingly, for Harold's mind worked at feverheat reviewing all the events of the day, from his examination of the letters in bed in the morning (which seemed at least six months ago) via his treatment by Mrs. Tilling in the afternoon, his freeing of Puddingface from his bonds, his ravaging of Danvers' bedroom, his meeting with those awful girls, his second encounter with Mrs. Tilling and the scene with Danvers and Marks and the fight on the stairs, to the final discovery that he had been holding in his trousers for two hours a cocked automatic pistol, which apparently only a miracle had prevented from blowing a hole in his thigh or abdomen.

And then, just when sleep was coming, just when Harold was sinking peacefully into her warm embraces, Harold leaped in his bed and turned over with a groan. The letter! He had forgotten to write that letter to Marjorie! And now Mrs. Tilling's venomous report on his behavior would go uncombated. At that gray hour this was to Harold's mind (and who can say it ought not to have been?) equally as important as his possession of the love letters of the king of the Huns and Avars. Harold mentally resolved to buy flowers on the morrow and take them as a peace offering, but he was dully aware that they would be inadequate. And he knew nothing even now of a Destiny who was disposing of his morrows quite without consulting him.

Harold did not sleep at all in the end.

CHAPTER VI

Monday

After breakfast the next morning Harold left the house, leaving Puddingface and Mrs. Pound to interview the police detective who arrived as breakfast was ending.

Yet he was unpleasantly conscious of a hawklike profile which sauntered after him to Morley Park station, bought a ticket, and climbed into the next carriage to Harold on Harold's train. It emerged with Harold at the terminus, jumped onto the same bus, and traveled with him as far as Oxford street, where Harold alighted to take up his duties in his branch of the National County bank. The presence of this profile exercised Harold's mind exceedingly.

As yet he did not have a ghost of an idea of what he ought to do. Clearly it was his duty to restore the letters to their rightful owner, and he was hazy as to who this was. Certainly it would not be the fellows who had committed murder on Morley common—rightful owners would certainly call in the help of police, and would demand in legal form the restoration of their property, instead of making burglarious entry into respectable people's houses in quest of it. And clearly it was Harold's duty to see that the letters did not fall into the wrong hands.

That was easy, seeing that he was not only an employee but a customer of the bank. No sooner had Harold hung up his hat than he sought out Knott, who had charge of this sort of thing.

"I want to deposit a packet for safe keeping," said he to Knott.

"Right-o, old man!" said Knott. "Help yourself to a form and fill it out."

Harold took the form, but to pull the leather case out from under his shirt called for a discreet preliminary retirement. This done, he took out the letters and sealed them in a large bank envelope which he addressed to himself; then he turned his attention to the form. In it the bank made formal acknowledgement of the receipt of "a packet said to contain private documents," from Mr. H. N. Attridge. Harold debated within himself, tapped his front teeth with the end of his fountain pen, and finally endorsed the form "only to be delivered to myself in person." That made things as safe as they could possibly be, as in that case, with himself always present at the branch, forgery and impersonation were impossible. "I'd rather it was put away now," said Harold.

(TO BE CONTINUED.)

"Witch" Elm Claims Victim

How the "witch" elm tree claimed another victim recently was told at the coroner's inquest at Port Talbot, Wales. Thomas J. Richards, thirty-six, had been engaged by the Penybont council to trim the branches. A branch on which he was standing snapped, and he fell 40 feet to the road and was killed. A lineman previously had been killed while cutting away the branches of the same tree under similar circumstances. The tree, nearly 50 feet high, is known among woodsmen as "a traitor tree."

Arbitrary Word

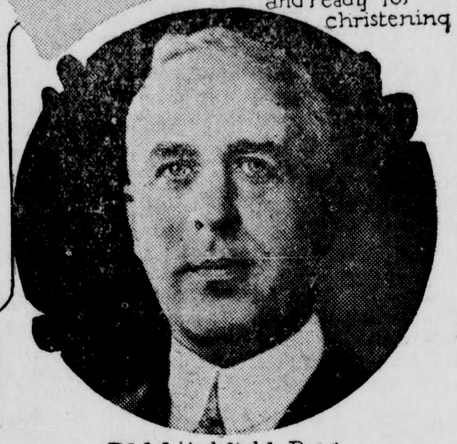
The word "gas" is without any derivation at all, it has no "root." It was originated by a Belgian chemist, Helmont, about 1630

America's Leviathan of the Air

Mrs. Hoover

The Akron and dock cleared and ready for christening

Lieut. Comdr. Rosendahl
Commander of Akron



P. W. Litchfield, Pres.
Goodyear Zeppelin Corp.

By HUGH ALLEN

IN THE presence of 150,000 persons from all sections of the country, Mrs. Herbert Hoover, first lady of the land, formally christened the U. S. S. Akron, world's largest airship, in the great zeppelin dock on Akron municipal airport, Saturday afternoon, August 8.

Added to the throngs in the building who actually witnessed the ceremonies, millions of listeners tuned in on radio sets all over the world, to hear the wife of the President of the United States formally name the largest military aircraft ever built, and to hear the flutter of wings as 48 homing pigeons raced out of a hatchway near the nose of the ship.

On the platform with Mrs. Hoover were David Sinton Ingalls, assistant secretary of the navy in charge of aeronautics, Rear Admiral William Adger Moffett, chief of the navy bureau of aeronautics, Paul W. Litchfield, president of the Goodyear Zeppelin corporation, builders of the ship, and other noted figures of official and private life. Standing at attention in front of the control car of the aerial dreadnaught were Lieut. Com. Charles E. Rosendahl and his crew of nine officers and 51 enlisted men.

President Litchfield of Goodyear introduced Admiral Moffett to the crowds, and the admiral, long an enthusiastic supporter of lighter-than-air craft, predicted that the second navy airship would be even greater than the Akron in size and cruising ability.

Long before the christening the USS Akron was officially designated on Navy department blueprints as the "ZRS-4." These letters stand for "zeppelin rigid scout number four." The ZRS-4, or USS Akron, far surpasses the famous Graf Zeppelin or the British R-100 in size, speed, strength and ability to cover long distances.

In 1924, President Litchfield of Goodyear brought over from Germany Dr. Karl Arnstein and 14 other engineers and designers from the German Zeppelin works at Friederichshafen on Lake Constance. Activities of the German concern had been brought to a halt by the allies, and there was a strong possibility that the talent and experience gained by years of close association with the huge rigid airships might become scattered to the four corners of the earth.

On arrival in this country, Doctor Arnstein, who designed and supervised construction of 70 of Germany's war zeppelins, went to work on designs for large commercial ships. The United States navy then announced a design competition, the concern submitting the best design to be awarded a contract to build the world's largest airship.

Goodyear Zeppelin submitted three designs, and designs were also entered in the competition by 37 other firms. The three designs of the Akron concern, however, took first, second and third place, and in the autumn of 1928, the contract was formally awarded.

Then the zeppelin dock, the world's largest building without interior supports, was erected on Akron municipal airport, and with completion of this huge structure late in 1929, work on the ZRS-4 was started.

First, it was necessary to make girders out of the sheet duralumin that came into the zeppelin plant. These girders were made according to specific plan, and each was numbered before being transported to the dock. At the dock, they were assembled into a huge "main frame," or ring girder, whose diameter was 133 feet. This huge main frame was assembled on the floor of the dock, and later hoisted into its vertical position.

The first rivet to be driven into the frame was of gold and was squeezed into place by Admiral Moffett before a crowd of 40,000 persons. In all, there are more than 6,500,000 rivets in the framework of the ship, and each was squeezed into place by hand, workmen using tools especially designed for the purpose.

All of the main frames, which are of unusual construction, were assembled on the floor, and then hoisted into place, in the same manner as the first one, and connected by longitudinal girders.

Now, with the fabric covering of the ship all in place, the maze of duralumin girders and main frames are not visible to spectators, who are thus unable to gain an idea of the immense amount of work that went into building this leviathan of the air.

The ship has a length of 785 feet—only 9 feet longer than the famous Graf Zeppelin that has done so much to bring home to the public the practicability of lighter-than-air travel—but its diameter, 133 feet, is 34 feet greater than the Graf, accounting for the fact the Akron will have nearly twice the gas capacity of its German sister.

Total gas capacity of the new ship is 6,500,000 cubic feet, as compared with 3,700,000 cubic feet for the Graf. Instead of being contained in one huge envelope, gas in the Akron will be confined in 12 separate cells, in effect, 12 separate balloons. Each of these cells was more carefully tailored than any human garment, and was built to fit the particular section of the ship in which it is located.

To build the cells, more than 12 acres of specially woven cotten cloth was required. Half of the cells are of rubber-parrafine construction, while the remainder are of gelatine-latex construction, a new development during the past year or so.

An additional seven acres of fabric were required to make the outer cover for the Akron. The cloth was cut into panels averaging 74 feet in length, and ranging in width from 12 to 24 feet. The panels were first laced to the framework as tightly as possible, and then a single coat of clear dope, similar to that used on airplane wings, applied with a brush. Application by brush insured that the dope soaked into every pore of the fabric, and when it dried, stretched the cover taut as a drum. Following this another coat of clear dope was sprayed on with air brushes, and later, two coats of aluminum dope were applied.

Contrary to popular opinion, the aluminum dope, which gives the ship a beautiful silvery appearance as it flies through the air, is not for beauty alone. It has been discovered that this type of dope is best for reflection of sunlight and its attendant heat. Lifting gas, when heated, expands, and changes weight calculations of the airship's captain. It is best, then, to maintain as near an even temperature as possible.

In sewing together the panels, a tolerance of only one-thirty-second of an inch was allowed on the seams. This is easily understood when it is pointed out that miles and miles of seams were necessary, and had the tolerance been one-fourth of an inch, instead of one-thirty-second, an extra weight of many pounds might have been entailed.

A feature of the Akron's construction not found in any airship heretofore built, is the installation of the motors in roomy compartments inside the hull, instead of in gondolas suspended outside the ship. This refinement is made possible by use of helium, the non-inflammable, non-explosive lifting gas of which this country has a natural monopoly.

Installation of the motors inside the ship reduces the resistance set up by the suspended gondolas, and gives the ship greater speed. Also, the engine compartments are much larger than was possible in the old gondolas, and allow mechanics ample space to care for the throbbing power plants under their supervision.

Four engines are located on each side of the ship and produce a total of 4,480 horsepower. The motors, each with 560 horsepower, will propel the ship at a top speed of 84 miles per hour.

Gasoline for the motors is carried in tanks ranging in capacity up to 365 gallons each, and a total load of 20,000 gallons of gasoline may be carried. This amount of fuel is sufficient to fly the ship over a distance of 10,500 miles without stopping.

As 20,000 gallons of gasoline weigh 60 tons, it is apparent that should this amount be nearly all used up on a single flight, the ship would be nearly 60 tons lighter when it returned to its base than when it started, and consequently much harder to handle. To compensate for this, a water ballast recovery system has been installed on the Akron, which will allow the ship to return to its base weighing even more than when it started.

Above each of the motors is a series of condenser panels, through which the exhaust gases from the engines are forced, after being mixed with air. Theoretically, it is possible to recover 135 pounds of water for each 100 gallons of gasoline used, but engineers, through tests, have satisfied themselves that more than 100 pounds of water can be recovered in actual practice, for each 100 pounds of gasoline used.

A system of marine telegraph indicators will be used to convey instructions from the captain of the ship to the engine rooms.

Power is delivered from the motors to the propellers outside the hull by means of a rigid shaft and bevel gear device, mounted on sturdy outriggers. The propellers may be tilted through an arc of 90 degrees, and can thus exert thrust downward, to help the ship off the ground in a take-off, as well as in the usual horizontal direction necessary in flight. The motors are reversible, and the propellers may thus be used to pull the ship to earth if necessary, when they are tilted in a vertical position.

Just aft of the control cabin is another unique feature of the Akron. It is an airplane compartment that will hold five completely equipped fighting airplanes. The planes may be lowered through a T-shaped opening through the bottom of the hull into the air, and then released, to go about their assigned missions. On completion of these missions, the planes can return and hook on to a special trapeze, and be hoisted into the huge airship without ever having landed.

One of the most interesting things to be found in the Akron is its telephone system. As the craft is more than two-and-one-half city blocks in length, it is necessary that the captain in the control car have immediate communication with all sections of the ship. Hence, 18 telephone instruments are located at strategic points, and the captain may talk to any or all of them when he desires.

The control car contains three rooms—the first for actual flying of the ship, in which the control wheels are located, the second for the meteorologist, or weather expert, and the third for the navigator.

Quarters in which the officers will live are located above the control car inside the hull, and are equipped with bunks and chairs. Quarters for the crew are located on each side of the ship, along the gangways or catwalks that serve as passageways, and also as rigid keels. In addition to the gangways or keels along each side, there is another located in the extreme top of the Akron, making a total of three. Previous ships have had but one keel, which extended along the bottom center line.

Meals will be prepared on an especially built stove, weighing but 110 pounds. The stove has eight cooking spaces, and is sufficient to prepare warm meals for the entire crew. The first breakfast, prepared as a test of the stove and cooking equipment, was served while the ship was still in the dock at Akron, and consisted of flapjacks with butter and honey, and coffee.

The control surfaces, which are directly responsible for maneuvering the Akron, are located near the stern, and consist of four fins and movable surfaces, one pair extending horizontally, and the other pair vertically, from the hull. The fixed surfaces, or fins, give stability to the craft, and each is about the size of an average city lot. It has been estimated that four ordinary bungalows, together with two one-car garages, could be placed on each horizontal fin, with still enough room left over for a few flower beds.

Attached to the fixed surfaces are the movable surfaces. The rudders, which govern the lateral direction of the ship, are attached to the rear of the two vertical fins, while the elevators, governing the up and down movements, are attached to the horizontal fins.

In the lower vertical fin is located an emergency control room, 3 feet wide and 15 feet long. Here two men will be stationed at all times to assume control of the ship should the cables leading from the forward cabin to the fins become shot away in war time, or disabled for any cause whatever.

Following trial flights of the Akron, and her formal acceptance by the navy, it is planned to base the ship at Lakehurst naval air station for some time.

The Akron is primarily a navy ship, and was not built for passenger work. She will be assigned to missions with the fleet, and will act as a scout ship.

Ships of the same general design may easily be built for commercial work, however, and looking to this end, the International Zeppelin Transport company and the Pacific Zeppelin Transport company were organized nearly two years ago to study routes and terminal sites for Atlantic and Pacific passenger lines.

As a result of these studies, it is believed that a business man could leave his desk in New York on Saturday morning, arrive in London on Monday morning, transact business in Europe until Friday morning, and be back at his desk in New York the following Monday, in only a few days more time than it would take to make a one-way crossing on a surface craft.

Terminal site locations have been studied for sometime, but no announcement as to where the American terminal of the Atlantic line will be located has been made.

The Pacific line, it is expected, will some day operate from the west coast of the United States to the Orient, through Hawaii and the Philippine Islands.

EAGLE ATTACKS WORKMEN ON NEW HYDRO PROJECT

A giant bird with a chip on his shoulder—or the birdland equivalent of an ingrowing grouch—suddenly attacked a crew of men the other day on the Mokelumne river hydro-electric project. It was a battle royal for several minutese, until one of the workers hit the raider on the head with a shovel. Forest Ranger Smith can testify that the eagle weighed more than 50 pounds and had a wing spread of about 6 feet.

The signing of papers is the only formality necessary to a divorce in Russia.

SOMETHING NEW

An English woman has invented overshoes fitted with wire netting to prevent slipping on ice.

A system has been devised in Paris, France, whereby the store windows will be lighted only when shoppers are in front of them.

To provide a milder smoke and prevent the tobacco from coming in contact with the mouth, cigars are now offered with wooden mouthpieces.

Heating the soil in seed-beds by electricity, to hasten sprouting and early groth of plants in early spring, has been tried and is considered economically promising.

Apparatus has been invented for injecting steam into truck loads of coal to lay its dust before delivery.

For use in small residences or apartments, a pipe organ has been invented that takes up no more room than a grand piano, which it resembles.

Nine persons can examine an object at the same time with a new microscope having multiple eye-pieces.

A non-drip shaving brush in which an absorbant sponge-like material is used instead of bristles is an English invention.

Spraying apparatus using a mixture of hot water and oil has been developed with which a locomotive can be washed in ten minutes.

A handle at their base enables the strings of new tennis rackets to be tightened or loosened at will.

Apparatus has been developed to utilize the heat produced by rotating electric machinery to warm buildings.

With a new locking device for automobiles all doors are locked at once by pressing a button.

Ordinary corncobs, treated with acids and put through simple converting processes, have been found to make an effective electric insulator.

Breakfast is served in rooms of one New York hotel by being shoved through a small trap door in the bottom of the room door.

Old-fashioned fleece lining is now stiffened with starch, baked in molds, dyed black and becomes a radio loud speaker.

By cutting a window in the bottom of the hives, a California bee-keeper has devised a way to prevent the queen bees from leaving the colony.

A process for making industrial alcohol from natural gas waste has been developed in Canada.

A non-breakable mirror recently invented by a German scientist is made of wood.

Made from stone, a wool like material has been invented that can be blown by compressed air apparatus into walls and over ceilings in buildings to insulate them against heat and cold.

Electrically welded hollow steel airplane propellers has been invented to save weight and reduce cost.

A universal wrench has been invented that is claimed to fit the hub caps of all models of automobiles.

To enable salesmen to describe goods to prospective customers a picture projector that can be operated from a lighting circuit has been developed.

A flashlight lamp that can be carried on a photographer's head, leaving his hands free to operate his camera, has been perfected by a resident of Washington, D. C.

A German inventor claims to obtain great sensitiveness and brilliance of tone from violins played with a bow made of slightly roughened silver wires.

A method has been develped in Switzerland for combining tin with pulp, making a virtually indestructable and fire proof paper banknotes.

The world's largest library, which contains more than 4,000,000 books and an enormous collection of manuscripts and pamphlets, is in Paris, France.

New York state spends $2,000,000 each year to protect and increase its forest resources.

Registered motor vehicles in the world now number 35,805,602, of which 26,697,398 are in the United States.

To aid the state's copper industry, Arizona's 1932 automobile license plates are to be made of copper.

Because of the sea's gradual recession, the city of Ravenna, Italy, which 400 years ago was an important seaport, now stands six miles inland.

CHRYSANTHEMUM FESTIVAL AT REDWOOD CITY, OCT. 3

The chrysanthemum, which ranks at the top among the flowers produced in San Mateo county—a county noted for its beautiful flowers—will be honored by both Redwood City and San Mateo county at the Redwood City Kiku Matsuri (Chrysanthemum festival), to be held on Saturday, October 3.

The Kiku Matsuri will be based on the traditional celebration of that name in Japan, where the chrysanthemum is the national flower.

One of the most charming chrysanthemum gardens in Redwood City, where the modern method of growing these great flowers under cheesecloth was originated and revolutionized chrysanthemum growing, will be opened to visitors from 2 to 4:30 o'clock Saturday afternoon, October 3. Tea will be served in Japanese style to those who wish it.

"A night in Japan" will be exemplified in the outdoor show in the evening at the football field of the Sequoia Union high school at Redwood City, when American and Oriental entertainers will appear in Kiku Matsuri events. During both the afternoon and the evening an exhibition of chrysanthemums grown by the peninsula's most noted growers will be shown at the Sequoia high school auditorium.

The Kiku Matsuri fetes in Japan are held each year when the chrysanthemums are in full bloom. The Kiku Matsuri in Redwood City is also to be held during the full blossoming of these flowers.

STATE'S COMMERCIAL FISHING INDUSTRY AVERAGES $40,000,000

California's commercial fishing is an industry that averages between thirty and forty million dollars each year, according to the bureau of commercial fisheries of the Division of Fish and Game.

Of what does our commercial fishing industry consist?

The California State Fisheries Laboratory, Terminal Island, has just issued Fish Bulletin No. 30, entitled "The Commercial Fish Catch of California for the Year 1929." It is the third of an annual series of publications on the commercial fisheries, and is designed to present a popular version of the state's catch statistics. New phases of the commercial fisheries statistics have been presented in the bulletin. Records which have a direct bearing on the catch, such as statistical data on the fishing boats, and estimated values of marine productions have been given.

Of particular interest among the articles on the general welfare of the state's marine resources is one by C. B. Tendick, agent of the United States Bureau of Fisheries, entitled "The Value of the Commercial Fishery Products in California."

The California State Fisheries Laboratory staff members have given individual species attention from the following angles: California sardine landings have been compared with those of five foreign nations. The reasons for the results of the expansion of the tuna fishing areas are given. The skyrocketing in the last few years of the mackerel with its more recent inclination to fall off is explained. Interesting facts are also brought out about what is being done by the three Pacific coast states and the two government concerned with our fast disappearing salmon. The romance of the Alaska codfish fishery and many other interesting facts appear for the reader.

This will be mailed, free of charge, to all who apply to the California State Fisheries Laboratory, Terminal Island.

AUTOMATIC SWITCH EVEN KEEPS TRACK OF SEASONS

Not content with an "electric eye" that turns lights on at dusk and off at dawn, engineers of the General Electric Company have developed the automatic switch to the point where it will omit operations on holidays and even make allowances for geographical latitude and for the seasons of the year. It can perform such operations as starting motors in the morning and shutting them down for luneh hours and in the evening. In apartment houses it can turn on hall and fire-escape lights at dusk, turn off the hall lights at midnight, or any other specified time, and leave the fire-escape signals on until morning.

A woman in Pennsylvania, after being mute for twenty years, recently recovered her speech when stung by a bumblebee, but what speech she recovered isn't of record, probably because of the censorship laws.—New York Evening Post.

"Are you positive," demanded counsel, "that the prisoner is the man who stole your car?"

"Well," answered the witness, "I was until you cross-examined me. Now I'm not sure whether I ever had a car at all."—Buffalo News.

"Son," said the busy mother, "can you change a dollar for me?"

"Almost," replied the lad quickly. "I can change 65 cents for it."—Chicago News.

SIDELIGHTS

Dorothy Dell of the Ziegfeld Follies is strictly chaperoned by her mother, who is determined to keep her little daughter away from the contaminating influences which sometimes beset young stage stars. By the way, Miss Dell's song hit of the show is entitled: "Was I Drunk; Was He Handsome; Did My Mother Give Me Hell?"

Robert Cloud, a New York negro, is a lyric composer of talent, who has written the words and music of more than a score of songs. His regular job, however, is that of a Red Cap at the Grand Central Station.

Evidently believing in the theory that it is all right to try anything once, Karl Provilaitis of Waterbury, Conn., followed the suggestion of a friend respecting a home-made remedy. He drank moonshine whiskey from a bottle containing an 18-inch snake in the hope that it would cure his stomach trouble. It didn't. But his wife got a divorce on the strength of it.

The president of a company manufacturing cough drops reveals that his sales for the past year have been greater than in any similar previous period. Wise folks may readily anticipate the answer to the question, "How come?" The company doubled its advertising last year.

A stick of chewing gum recently cost a Hollowood talkie producer $1,000. An extra actor watching the filming of a picture chewed gum during the "shooting" of the scene. The cracking sound made by the chewer was reproduced like static, and the scene had to be made over at a cost of $1,000.

Henry Billingsley of Lone Pine, Calif., doesn't claim to be much of an airplane pilot, but he thought he could manipulate a stolen plane sufficiently to carry away his two children when he became estranged from his wife. And in spite of his inexperience he got away with it. That is, he got the children away without breaking any necks, but he now faces the law's stern demands for his exploit.

Government entomoligists find that some persons are more attractive to mosquitoes than others. That is a brand of popularity that isn't very eagerly sought, however. We won't mind if the Anopheles and Culex never discover that we have "It."

Clyde Tombaugh's keen eyes have won for him a four-year Kansas University scholarship, the first to be granted in memory of the late great scientist, E. E. Slosson. Young Tombaugh, you may possibly remember, is the discover of the planet Pluto, which he found while serving as assistant at the Lowell Observatory last year, thereby gaining a place in the astronomical hall of fame at the age of 19.

The Business Week points out the rather curious fact that the heads of the four great tobacco manufacturing companies of the country have names with only four letters: Hill of American Tobacco, Gray of R. J. Reynolds, Toms of Liggett & Myers, and Belt of P. Lorillard. Incidentally, sales of cigarettes in July were 10 per cent below those for July, 1930, due to increases in prices.

An odd will has been filed at Des Moines, in the form of a phonograph record upon which Theodore Mantz directed the disposition of his estate, followed by statements of witnesses. This is believed to be the first all-talkie will on record.

People eat 20 per cent less bread than they did 30 years ago, according to the Department of Agriculture. If bread consumption had kept pace with increased population there would be no wheat surplus. Perhaps the various dieting fads are responsible for the low price of wheat. The Farm Board should look into this.

Many Americans are still being swindled by sharpers who represent that their victims are heirs to large estates in various European countries. The "heirs" are asked to furnish funds for establishing their claims. In a recent case a million-dollar estate of "Sir Mathew Wilkinson" awaited claimants, so the swindlers said. An investigation disclosed that there had never been any Sir Mathew Wilkinson.

Statistical information is often valuable, but it sometimes comes high. It recently cost the taxpayers about $19,000 when a Senator asked the Tariff Commission "How many fish are brought into the United States and its possessions by aliens?" Inquiry had to be made to some 56,000 owners of fishing vessels before the Senator's weighty question could be answered.

Miss Anita Grew, who recently swam the Strait of Bosporus from the Black Sea to the Marmora, is believed to be the first person to accomplish this 19-mile swim.

"NINE O'CLOCK REVUE" COMING TO THE GEARY

What is hailed as the world's fastest musical show and the first great revue to visit San Francisco since the sensational "Gay Paree," will be the attraction at the Geary Theatre, San Francisco, beginning Monday night, September 21, when, direct from an all summer run at the Hollywood Music Box, Eddie Borden, Al Herman and Eddie Lambert will be seen in their hilarious and sophisticated "Nine O'Clock Revue."

The "Nine O'Clock Revue" is said to be one of those breath-taking entertainments in more than forty scenes, intersperced with uproarious comedy scenes, fast dancing numbers, and catchy, whistling tunes.

Others in the cast supporting the three stars are Maxine "Tut" Mace, the beautiful and spectacular dancer, Jack Holland and June Knight, great San Francisco dance favorites, and Ernest F. Young. Additional prominent players are June Summer, Joseph Morrison, Ted and Sally, Allan Wood, Dot Brown, Ed Tamblyn, Charlotte Neste and Joseph Chubb.

In addition to the large cast there is a fast-dancing, youthful chorus, said to be the pick of the cinema beauties of Hollywood. Eddie Prinz and Eddie Diamon, who staged the "Nine O'Clock Revue" under the personal supervision of Eddie Lambert, have provided this bevy of beauties with many of the latest and rapid tempo dancing numbers.

The object of ringing up the curtain on the "Revue" at nine o'clock is to enable the sophisticated audiences that enjoy this modern and rapid type of fun and novelty to dine at leisure, revel in the show and get home but a little later than from the ordinary entertainment.

"Do you remember that couple we met on the steamer we took such a violent fancy to—I mean the couple we invited to visit us?"

"Yeah. You don't mean to say—"

"Yes, the idiots are actually coming!"—Life.

Washington's 200th anniversary will be celebrated next year by people who voted away the liberty he gave us.

A certain sales manager has a very loud voice. One morning, when he was shouting in his office, the managing director asked his secretary, "What's all this noise about?"

"Mr. Blank is talking to London, sir," was the reply.

"Then why on earth doesn't he use the telephone?" asked the M. D.—Halifax Daily Courier.

"All should learn to drive a car," says an advertisement. Especially a lot of ginks who are driving now.

NOTICE OF SHERIFF'S SALE

No. 5889.

In the Municipal Court of the City and County of San Francisco, State of California.

Ray M. J. Greene, Plaintiff, vs. Florence E. Clark, Defendant.

Under and by virtue of an execution issued out of the Municipal Court of the City and County of San Francisco, State of California, on the 18th day of August, 1931, in the above entitled action, wherein Ray M. J. Greene, the above named plaintiff, recovered a judgment against Florence E. Clark, the above named defendant, on the 4th day of February, 1931, for the sum of Three Hundred and no/100 ($300.00) Dollars damages, and Twenty-one and 40/100 ($21.40) Dollars costs, together with interest and attorney's fees, as appears to us of record.

AND, WRHEREAS, the judgment roll in the action in which said judgment was entered is filed in the Clerk's office of said Court in the City and County of San Francisco, State of California, and the said judgment was entered in the Minute Book of said Court in Volume Number 9 at page 119 thereof, on the 4th day of February, 1931.

And the sum of Three Hundred and no/100 ($300.00) Dollars damages, twenty-one and 40/100 ($21.40) Dollars costs, together with interest and attorney fees, as provided by law, is now at the date of this writ actually due on said judgment. I am commanded to sell all those certain lots, pieces or parcels of land situate and being in the City of Daly City, County of San Mateo, State of California, and more particularly described as follows, to-wit:

Lot No. 1, Block No. 8, Vista Grande No. 1, Daly City, San Mateo County, California.

Public notice is hereby given that on Tuesday, the 6th day of October, A. D. 1931, at the hour of 10:00 o'clock A. M. of that day, at the front entrance of the County Court House, in the City of Redwood City, County of San Mateo, State of California, I will sell all the right, title and interest of Florence E. Clark, the above named defendant, in and to the above described property, at public auction, for cash in lawful money of the United States of America, to the highest and best bidder, to satisfy said judgment and all costs.

Dated: Redwood City, California, September 8, 1931.

JAMES J. McGRATH, Sheriff.
By C. A. CALLAGHAN, Deputy Sheriff.
James D. Lucey, 68 Post Street, San Francisco, Cal., Attorney for Plaintiff.
Sept. 11, 18, 25; Oct. 2, 1931.

My wife has the same *instant* hot water service at home....

It saves her time and energy... It is inexpensive because of cheap Natural Gas

My wife doesn't play valet to a non-automatic water heater.

Instant hot water cleans two to twenty times faster. It therefore gives her hours of freedom each week for shopping or entertainment.

Furthermore, instant hot water costs less per gallon—this is especially true now because of cheap Natural Gas.

Automatic Gas Water Heater requires no watching

You never watch the Automatic Gas Water Heater. It heats the water to about 140 degrees, stores it, and turns itself off. All you ever do to get a basinful or a tubful of hot water is to turn the faucet any time of the day or night. The water stays hot because the boiler is insulated. No gas is wasted.

Stop in today at our office and see the Automatic Gas Water Heaters. You can have one installed in your home now for a small sum, the balance to be paid in monthly installments.

Dealers sell Automatic Gas Water Heaters.

Mrs. Boni and sons Remo and Ernest and daughter Miss Rena, of Parkview avenue, spent a delightful day last Sunday motoring in San Mateo county.

Mrs. J. E. Walker, of Frankfort street, left last Sunday for Minnesota, where she will visit for a month with her mother, who is recuperating from a serious illness.

Miss Carmelia Morgan, of Westlake avenue, accompanied by Miss Eleanor Bodien, Dorothy Green, Wilson Brown and Paul Green, motored to Antioch last Sunday, where they attended the football game between the Antioch high school team and the Jefferson Union high school team.

Mr. and Mrs. Pechenino and son George, of Brunswick street, recently returned from a delightful motor trip in the southern part of California.

Mr. and Mrs. Vickers, of Knowles avenue, have returned to their home after a two months' vacation spent in St. Louis with Mr. Vickers' parents.

Mrs. Walter Johnson, of Prunedale, arrived last Monday night at the home of Mr. and Mrs. Walter F. Dorn, where she will visit for the remainder of the week.

Prof. R. L. Crane, district superintendent of schools, enjoying a hunting trip during the recent vacation, going to Glenn county, and reports a most successful outing.

Mr. and Mrs. H. D. Smith, of Los Angeles, were guests over last week end at the home of Mr. Smith's sister and brother-in-law, Mr. and Mrs. C. Page, of San Diego avenue.

Mrs. Orvilla Talmadge and her daughter Betty, of Woodrow street, returned home last Sunday from a visit of two months' duration spent in Wisconsin with her parents.

Balboa ward was the recipient of four blue ribbon awards last Saturday afternoon at the San Francisco stake home-coming for the west bay district, which was held at 1649 Hays street.

Mr. and Mrs. Justin Warner and sons, accompanied by Mrs. J. Fields, all of Risel street, motored to Stockton last Saturday, where they visited with Mrs. Warner's mother and sister.

E. Gallagher, of Risel street, who has been seriously ill for the past week and confined to his bed in the Community hospital at Beresford, is convalescing slowly and hopes to be home soon.

The members of Crocker Parent-Teachers' Association attended an executive board meeting held at the home of their president, Mrs. William P. Bolger, of Risel street, last Monday afternoon.

Last Tuesday the Crocker Parent-Teacher Association members held a very interesting meeting in the club rooms at 12 Wellington avenue. Many interesting plans were discussed for the coming year.

Mr. and Mrs. F. Geldhof and Mr. H. G. Blakeney, of San Diego avenue, attended the State Fair in Sacramento during the holidays. During their visit in Sacramento they were guests at the Travelers' Hotel.

Mr. and Mrs. Leonard January, of Winchester street, returned home last week from a delightful visit with friends in San Diego. While in the south they also attended the American Legion convention in Los Angeles.

Lillabell Fletcher, daughter of Mr. and Mrs. R. E. Fletcher, of Templeton avenue, hase been confined to her bed for the past week, the victim of a serious illness. Her playmates hope to see her up and around again soon.

Mrs. Ray Peck, of San Mateo avenue, who recently went to Ogden, Utah, to bury her two little daughters, is at present confined to her bed, suffering from a nervous breakdown. Her many friends in Daly City wish her a speedy recovery.

Mr. Leonard January, of Winchester street, had the tip of one of his fingers amputated one day last week, in a San Francisco hospital, as the result of an accident. His many frends hope to hear that he is able to be at home very soon.

Don't forget that next Wednesday is the day of the benefit whist which is scheduled to be held in the General Pershing school, at 2:15. The committee in charge, including Mrs. Coen, Mrs. Amanda and Mrs. Steele and several others, have spared no effort to make this affair a huge success.

The Primary's home-coming program was held Wednesday night in George Washington Masonic Hall. The program was rendered by the children of the Primary Association of Balboa ward, under the able direction, of Mrs. A. W. Sadler, Mrs. L. L. Baggs and Mrs. Nettie Hunter.

Ladies of Woodrow Wilson Parent-Teachers' Association are invited to attend sewing at the home of Mrs. Nelson, 339 Willits street, Wednesday, September 23. Clothing in good condition to be donated for student aid, Woodrow Wilson Parent-Teachers' Association, can be sent or taken to the home of Mrs. Page, 532 San Diego avenue.

Cards will be the diversion on Friday evening, September 25, when Court St. Mary No. 1155, Catholic Daughters of America, will entertain in the parish hall of Our Lady of Perpetual Help church on on Wellington avenue, Daly City. Whist will be played and the game will start at 8:30 o'clock. Mrs. Anne Shaw and Mrs. Minnie Rancatore are in charge, assisted by a committee of eight members of the Court. The public is cordially invited to attend the party.

Mr. and Mrs. Al Kennedy, of Crocker avenue, are the proud parents of a fine baby girl, born last Satuarday evening at St. Mary's hospital. Mrs. Kennedy was the former Miss Margaret Varni. Mother and baby are getting along finc, and their many friends wish them both much happiness.

Mrs. Lorraine Wall, Mrs. Christine Hume and Miss Marge O'Connor have returned from a week's trip to Los Angeles, where they attended the Native Daughters and Native Sons convention. They made the trip to Los Angeles on the steamer Yale, and returned home on the steamer Iroquoise. From all reports they had a wonderful trip.

Our community ought to be proud of their drill team and drum corps of the Native Daughters and Native Sons for the wonderful showing they made at Los Angeles in the Admission day celebration. Both teams were highly praised for the way they conducted themselves and went through their maneuvers. Both teams were in the same unit, and made a pretty picture.

PIONEER RESIDENT PASSES ON

Last Tuesday the neighbors of Jacob Medo, of Santa Barbara avenue, were shocked to hear of his sudden death, due to a cerebral hemorrhage. Mr. Medo had been a resident of Daly City for many years, and was a member of the Veteran Firemen's organization. He leaves his wife, Anna Medo, and a son, Nick Medo, his mother, Mary Medo, and three brothers, Frank, Mike and Martin Medo, to mourn his passing. Mr. Medo was a native of Brgort, Yugo-Slavia. The funeral is to be held tomorrow (Saturday) morning at 9:45, from the mortuary chapel of W. C. Lasswell & Co., thence to Our Lady of Perpetual Help church, where a mass will be celebrated for the repose of his soul, commencing at 10 o'clock. Interment will be at the Holy Cross cemetery.

WOODROW WILSON P. T. A. HAS NINE NEW MEMBERS

The members of Woodrow Wilson-Vista Grande Parent-Teachers' Association held their regular meeting in the Woodrow Wilson school, September 15. Mrs. Baughn, Seventeenth district financial secretary, spoke on finance and budget making. Mrs. L. Landini, fourth vice-president of the Seventeenth district, spoke a few words of greeting to the members. Mrs. Lohr, school nurse, discussed the work of the dental clinic and the giving of toxin anti-toxin for the prevention of diphtheria. Mrs. H. Hanselman was appointed as delegate to the district meeting. There were nine new members taken in at this meeting, and several more promised.

NEW SLOGAN ADOPTED BY LONGFELLOW ASSOCIATION

"Keep old members, get new members, and make all members participating members," was the slogan given to Longfellow Parent-Teachers' Association by Mrs. Jos. E. Morcombe, State Publicity Chairman, in her talk on "Membership and the Questionnaire," Tuesday, September 10.

Mrs. C. E. Erickson is Membership Chairman of the unit, and with the aid of class room mothers will conduct an intensive membership drive this month. Fifteen new members have joined since August 13, and forty-four, including the teachers of Longfellow, renewed their membership.

Mrs. Chas. Kieser was appointed first vice-president of the unit. Mrs. Kieser is also safety chairman, and in her report brought to the members interesting facts regarding safety in the home, street and school.

The Philanthropy chairman, Mrs. M. H. Williams, reported 152 pairs of shoes were collected in Longfellow and delivered to the Hearst Center recently. The success of the shoe drive was due to the splendid co-operation of the faculty, pupils and members of Longfellow.

Short talks were given by Mrs. Frank Eickhoff, Counselor of New Mission Section; Mrs. Eric Hammond, Program Chairman, and Mrs. Mabel Combs, Thrift Chairman of Second District.

Mrs. Rose C. Walker, Legislation Chairman of Longfellow, urged the members to register so that they could vote at the election this fall.

Mrs. W. J. Hunter presided, and invited all to remain for refreshments served at the close of the meeting.

LEGION AUXILIARY MEMBERS HAVE INTERESTING MEETING

The members of the Ladies' Auxiliary, American Legion Post No. 410, held their regular meeting on September 4. Mrs. Jones, historian, gave a very fine report on the philanthropy work that had been done by the ladies to aid the families of needy veterans. The next meeting of the Auxiliary, September 18, will be a benefit whist. All members are urged to attend and give their support. The public is cordially invited.

Four out of every 100 persons over 10 years old in the United States are illiterate, according to census figures.

DRILL TEAM MAKES CREDITABLE SHOWING

The drill team of El Carmelo Parlor No. 181, Native Daughters of the Golden West, made a wonderful showing in the Admission day parade at Los Angeles. They won the hearts of thousands of people watching the parade, and from every side the applause was intense, and great cheers were given for Daly City and Colma, as the young ladies in the team saw to it that they had a large Packard car decorated with their Parlor banner, which advertised their Parlor and respective cities. Mr. Fred Collins, the drill team's coach, drove the decorated car, and Mrs. Christine Hume and Mrs. Charlotte Collins, both members of El Carmelo Parlor, accompanied Mr. Collins in the car.

Much praise was given Miss Audrey Diamond for the manner in which she put the members of the team through their maneuvers with such perfection. On entering the Coliseum at the end of the line of march they were proclaimed by the announcer to be the snappiest and best looking team that had entered that day. All the different teams went through their maneuvers and drills in front of the reviewing stand in the Coliseum while Governor Rolph, grand officers of the order and other celebrities were in the reviewing stand.

Although very unusual, this year there were no cups or prizes awarded, but the writer is certain that if there had been, as in past years, our drill team would have brought home the bacon.

The drill team consists of the following young ladies: Audrey Diamond, Major; Marge O'Connor, Edna Boyle, Elsie Behringer, Eleanor Boyle, Nonie Healey, Ethel Anderson, Edith Taylor, Louise Clemens, Lorraine Wall, Elsie Fahey, Lucille Krause, Pauline Gregory, Tessie O'Cononr, Leona Walker, Alice Sandell, Anita Barner.

Mr. and Mrs. J. Thompson, of Hanover street, entertained a group of friends for an evening of cards last Saturday night, in honor of Mr. Thompson's birthday. After the card game the remainder of the evening was spent in dancing. At midnight a delicious buffet supper was enjoyed by the guests. The guests departed singing "Auld Lang Syne" after having spent a most enjoyable evening.

SPLINTERS

From the H. H. Smith Lumber Yard

VOLUME 4 FRIDAY, SEPTEMBER 18, 1931 NUMBER 8

Published in the interests of the People of Daly City and vicinity by H. H. Smith and Employees.

Read the following words rapidly and get the thought that would like to be in most husbands' heads: My muttering law fel- no alliance cage— gladiator.

Then there is the Scotchman who has two hats—one for the month after a haircut and one for two months before a haircut.

Do you need a Fix-it Man? Give us a ring and he will be at your services.

"Don' you go gamblin' on no hoss race."
"If Ah wins, Ah buys yo' a gold rose ring."
"An' if you loses, Ah buys a new washtub."

"Saya, Tony, I gypa da laundry man disa week."
"You gypa da laundry man?"
"Yes, da billa say, 'da rags, one cent,' and all da time it was my swella da undershirt."

Have you tried Baldwin, the sootless Coal?

"She says she considers me a wit."
"Well, at that, I think she's about half right."

First Prof.: "I hear Rastus was expelled for calling the dean a fish."
Second Prof.: "Yes, he kept saying to him, "Yes, sah, dean. Yes, sah, dean."

When you propose to a girl be sure to tell her that you are not good enough for her before she beats you to it.

There is something about the ownership of a home that gives a man courage to face life when things are at their blueist. Like the ancient giant whose strength was renewed every time he touched earth, the man who owns a home feels new courage and hopefulness every time he comes back to his own front gate.

For score cards for whist parties call at this office.

Katherine: "What makes the leaves turn red in the fall?"
Henrietta: "They are blushing to think how green they have been all summer."
